ANNUAL REPORT OF THE ROYAL BOTANIC GARDEN AND OTHER GARDENS IN CALCUTTA, AND OF THE LLOYD BOTANIC GARDEN, DARJEELING, FOR THE YEAR 1909-10.

From—H. WHEELER, Esq., C.I.E., Secy. to the Govt. of Bengal, Municipal Dept.,

To—The Secretary to the Govt. of India, Dept. of Revenue and Agriculture.

I AM directed to submit, for the information of the Government of India, a copy of the Annual Report of the Royal Botanic Garden, Calcutta, for the year 1909-10.

2. The thanks of the Lieutenant-Governor have been conveyed to Major A. T. Gage, I.M.S., and his subordinates for the work done by them during the year.

ANNUAL REPORT

OF THE

ROYAL BOTANIC GARDEN AND OTHER GARDENS IN CALCUTTA, AND OF THE LLOYD BOTANIC GARDEN, DARJEELING,

FOR THE YEAR

1909-1910.

ROYAL BOTANIC GARDEN.

General.—Weather conditions were practically normal throughout the year and the Garden was kept in good order except that during the cold weather the ponds were again at an unsightly and unhealthily low level—an undesirable condition that is certain to recur until it is found possible to replace the worn-out pumping engine by a new one. The chief outdoor works were the thinning of overcrowded parts of the garden, the development of vistas along suitable lines, the continued improvement of the nursery and the means of dealing with plant distribution and the solidification of the river bank which suffered badly during the heavy tides of September. The method now adopted in checking the river erosion is to push out buttresses built up of disused bricks held together in bundles by wire-netting and then to connect the buttresses at several levels along the bank by cross walls similarly built up. The result has been to check the destructive scour of the tides and to allow silt to be deposited between the buttresses and their connecting walls, thus making the river itself help to repair under new conditions the damage done under the old. The large palm-house was replanted during the year and repainted while the orchid house also had much of its contents renewed. The show of orchids was about up to the average. Arboricultural instruction was given to selected overseers from Bengal and from Eastern Bengal and Assam during the rains, and a report thereon furnished to the Director of Agriculture of each Province. The preparation of a new guide to the Garden was commenced during the year.

2. **Economic—Interchange of Seeds and Plants.**—A large number of seeds or plants of economic importance have been received from many botanical, agricultural and forestry departments throughout the world as well as from private individuals. An indication merely of this side of the work of the Garden may be got by mentioning some of the sources of supply such as the Royal Botanic Gardens of Kew and Ceylon; the Botanic Gardens of Penang, Java, Mauritius, Durban, Missouri, Sydney; the Agricultural Department of Formosa; the Forestry Department of Honolulu; Pomona College, California, etc. The Garden on the other hand has distributed a great variety of both plants and seeds of general economic importance and seeds and plants of such special things as rubber and fibre-yielding plants, lemon grasses, mangoes, cinchona, ipecacuanha, tea, etc., to such departments and places as the United States Agricultural Department, the Java Agricultural Department, the Hawaiian Islands, the Fiji Islands, the Agricultural Department of Formosa, Japan, Uganda, etc As usual the Garden has afforded facilities for the economic experiments of the Reporter on Economic Products to the Government of India. Nearly 1,500 packets of seed were received and over 4,700 packets distributed during the year. Over 3,000 plants were received from various sources and nearly 44,000 were distributed. Not included amongst the latter were about 15,000 plants of Azolla sent to various parts of India for experiment as a preventive of mosquito larvæ in tanks. The bulk of the plants distributed were roadside trees, shrubs and flowering plants. Nearly 300 plants of manicoba rubber were sent out.

3. **Herbarium and Library.**—Over 20,000 specimens were received in and over 10,000 distributed from the herbarium. Most of the specimens received are Indian and include, from Burma collections by Messrs. J. H. Lace, G. E. S. Cubitt, H. W. A. Watson, A. Rodger and E. M. Buchanan of the Forest Department and Captain R. W. MacGregor, I. M. S.; from the Burmo-Chinese Frontier collections by Mr. G. Forrest; from the Eastern Himalaya collections made by Mr. W. W. Smith, M. A., and Mr. G. H. Cave in the extreme north-west corner of Sikkim, and by Mr. R. E. Cooper and the late Mr. R. Pantling on the lower outer hills; from the Central Himalaya (Nepal) by Mr. I. H. Burkill, M.A., F.L.S.; from the North-West Himalaya by Mr. N. Gill, F.L.S., and Mr. A. R. Tucker; from Southern India by Mr. C. E. C. Fischer of the Forest Department. The foreign contributions include Chinese and Cochin-Chinese collections from the Museum d'Historie Naturelle, Paris; Malayan collections from the British Museum and the Singapore Botanic Garden; Philippine plants from the Bureau of Science, Manila; plants of Persia and Asia Minor from Mr. J. Bornmuller; European collections from Professor Pax of Breslau; African plants from M. Pitard of Tours and from the Botanical Garden of Zurich. The duplicates were distributed to the chief botanical gardens and herbaria throughout the world, and material of various orders and genera for study by specialists was sent out on loan as usual.

Library work has been of a routine character throughout the year. Through the kindness of Mr. Meebold, an artistic book-plate has been designed with the Kyd monument and the Avenue of Royal Palms for its *motif*.

4. **Publications.**—No publication has appeared during the year, but volume XII of the Garden Annals—being an illustrated monograph of the genus Dæmonorops of climbing palms by Signor Beccari—and Mr. Burkill's account of the botanical results of his visit to Nepal and the first fasciculus of the Garden Catalogue—forming parts of the Records of the Botanical Survey—are in the press. Mr. W. W. Smith's account of his tour in North-West Sikkim made in conjunction with Mr. G. H. Cave during the year under report and Mr. Meebold's account of his tour in Assam and Burma are also about ready for the press.

5. **Financial.**—The allotment of Rs. 35,850 for contingencies was expended in full. Under salaries and establishment there was a saving of Rs. 2,422-2-5 and under travelling allowances and compensation for dearness of provisions a saving of Rs. 348-12-6. The revenue of Rs. 581-7, being Rs. 218-9 short of the sanctioned estimated receipts, was paid into the Bank of Bengal.

• • • • • •

CALCUTTA GARDENS.

7. These comprise the Eden Gardens, Dalhousie Square Garden, Curzon Garden and Hastings House grounds. The work in connection with these is almost entirely horticultural and to a great extent of a routine character calling for little remark. Mr. J. T. Johnson has been in charge throughout the year and has been assiduous in attention to his duties. The continuous improvement of the appearance of all the gardens has been aimed at though the results may not be instantly visible. A number of flower-beds have been laid out on the Esplanade corner adjoining the Curzon Garden and planted up temporarily. Horticultural work there, however, is not likely to show to advantage until the general plan of improvement—which is in other hands—has been completed. The total revenue, as far as the horticultural side of these gardens is concerned, paid into the Bank of Bengal, amounted to Rs. 326-8, being Rs. 178 from Dalhousie Square Garden and Rs. 148-8 from Hastings House.

LLOYD BOTANIC GARDEN, DARJEELING.

8. Mr. W. A. Kennedy officiated as Curator from the 1st to the 22nd April 1909, thereafter Mr. G. H. Cave was Curator until the end of the year.

The latter has furnished a full account of the work done during the year that deserves more space than the exigencies of this report allow. Following the method adopted in the Calcutta Botanic Garden and referred to in previous reports for the accurate cataloguing of its contents, Mr. Cave has mapped out the Lloyd Botanic Garden into squares of 100 feet side and up to the end of the year has numbered with stamped tickets about half the non-herbaceous plants in the Garden. It is hoped hereafter to publish a catalogue for the information of visitors and for the purposes of facilitating exchange with gardens in temperate regions of the world. The regularising of the slopes has been continued and most of them and of the lawns have been renewed. The collection of living plants has as usual been increased, amongst the year's additions a set of willows from M. Dode of Paris deserving special mention. The Indian collection is increasing in size and number of species and some surprising results as regards tolerance on the part of different species of Darjeeling climatic conditions have been gained. The direct road from the main entrance has been improved in gradient and made passable to rickshaws, while about 500 feet of the wooden boundary fence that had become rotten was replaced by the municipal pattern of iron fencing. The paths of the smaller public conservatory have been concreted and a new propagating house fitted with heating appliances has been erected in the nursery. Over 5,000 pot plants and over 2,700 dozens of annual seedlings were distributed to Government institutions and more than 1,000 packets of seeds were distributed, mostly abroad. The herbarium—restricted to Eastern Himalayan species—and Libraen and the means of dealing with high level seeds for distribution have bery greatly improved, but it is much to be regretted that a more suitable building than a watchman's disused hut could not be provided for the accommodation of the specimens and books. The number of visitors to the Garden during the year was almost 50,000. The restriction as regards sale of Garden produce necessarily limits the revenue to a negligible quantity and only Rs. 42-2-9 were paid into the Darjeeling Treasury during the year. In addition to his charge of the garden Mr. Cave has done good work in connection with the Darjeeling Improvement Fund, the Municipality and Government House estate.

Letter from the Government of India in the Home Department, No. 443, dated the 22nd April 1910.

The pay and prospects of Civil Hospital Assistants were last improved in the year 1902, and the new grades in which the Service was thenceforth classified were notified in this Government Resolution of the 30th January 1902, quoted in the preamble. Since then, upon representations of grievances received from members of that Service, the question of the adequacy of the remuneration offered to them has been again considered, and the sanction of the Government of India has now been received to a further revision of the rates of pay, to which effect will be given from the 1st April 1910. At the same time the officers hitherto known as Civil Hospital Assistants will henceforth be termed Sub-Assistant Surgeons, and this nomenclature should be adopted in all future official correspondence. The Lieutenant-Governor trusts that the changes now made will have the effect of removing the causes of discontent which have been alleged in the past.

2. The existing grades of the Service are compared below with those to the introduction of which sanction is now given :—

Existing grades.	Pay. Rs.	Revised grades now sanctioned.	Pay. Rs.
Senior (above 20 years' service) ..	70	Senior (1st class)	100
		Do. (2nd class)	80
I (from 16 to 20 years' service) ...	55	I (over 15 years' service) ...	65
II (from 11 to 15 ditto) ...	45	II (from 11 to 15 ditto) ...	55
III (from 5 to 10 ditto) ...	35	III (from 6 to 10 ditto) ...	45
IV (under 5 ditto) ...	25	IV (from 1 to 5 ditto) ...	30

3. The promotion of Sub-Assistant Surgeons between the IV and I grades will continue to be regulated by the results of the examinations prescribed in Notification No. 472T.—Medl., dated the 15th June 1908. Promotion from the I to the senior grade, and within the latter grade, will be by selection. The total number in the senior grade will be restricted to 12 per cent. of the provincial establishment, namely 10 per cent. in the 2nd, and 2 per cent. in the 1st class of that grade. Under the existing organization the strength of the senior grade is limited to 10 per cent. of the total establishment.

4. The English qualifications prescribed by the orders of 1902 will continue to be required of all Sub-Assistant Surgeons, and the present pay of the 20 officers* now in the Service who are ignorant of English will remain unaffected by those orders, unless they are able to qualify themselves in this respect. In that event they will be admitted to the new grades according to their length of service.

5. The revision of the salaries of Sub-Assistant Surgeons necessitates the enhancement of the amounts payable by local bodies for the services of officers of this class who are lent to them. Such contributions are at present made at

the rate of Rs. 47 per mensem, under the orders of the Government of India No. 623, dated the 10th June 1909. With effect from the 1st April 1910 they will be raised to Rs. 57.

6. The Government of India have been pleased to approve of the following concessions, which will tend further to ameliorate the prospects of the Service :—

(*a*) *Free quarters or house-rent allowances.*—In accordance with the Resolution of the Government of India, No. $\frac{4\text{-Medl.}}{435\text{-}436}$, dated the 19th July 1894, Sub-Assistant Surgeons employed in sanctioned appointments, whether under Government or local bodies, will be granted by the authorities paying their salaries free quarters or house-rent in lieu thereof, provided that such quarters are approved and are at a convenient distance from the scene of these officers' duties. In respect of Sub-Assistant Surgeons who do not hold any sanctioned appointments, the Lieutenant-Governor has now been authorized to sanction the provision of free quarters or the payment of house-rent allowance in lieu thereof, subject to the condition that the amount of the allowance shall in no case exceed the rent actually paid by the Sub-Assistant Surgeon concerned.

(*b*) *Allowances for duty in connection with epidemics.*—The Lieutenant-Governor has been empowered to grant, at his discretion, allowances, not exceeding Rs. 10 a month, to men who are absent from their head-quarters on duty connected with epidemic diseases.

(*c*) *Punishment pay.*—Under the existing rules a Sub-Assistant Surgeon, when placed under suspension, is treated as a supernumerary and receives a monthly subsistence allowance of Rs. 10 without reference to his grade. In future the following restrictions will be observed :—

(*i*) the maximum fine in any one month will be limited to $\frac{1}{30}$ths of grade pay ;

(*ii*) no Sub-Assistant Surgeon will be placed on punishment pay for a longer period than will deprive him of one month's grade pay in a year ; and

(*iii*) senior Sub-Assistant Surgeons will be exempt from reduction to punishment pay and from fine.

7. The Inspector-General of Civil Hospitals will now be instructed to rearrange the Service in the new grades, and to inform the Accountant-General, Bengal, of the names of the officers thus promoted.

ORDER.—Ordered that a copy of this Resolution be forwarded to the Inspector-General of Civil Hospitals, Bengal, and the Accountant-General, for information and guidance; and to all Commissioners of Divisions, to all Heads of Departments, and to the other Departments of this Government for information.

Ordered also that a copy of the Resolution be submitted to the Government of India for information.

Ordered also that the Resolution be published in the *Calcutta Gazette.*

By order of the Lieutenant-Governor of Bengal,

H. WHEELER,
Secy. to the Govt. of Bengal.

The total fall from 1st January to 21st May 1910	7·10
The average fall of the corresponding period for 24 years, Surveyor-General's Office	7·58

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

month and the current demands with a statement of work done, be prepared by the Secretary from the diaries of the Inspectors.

(11) To compare the statement of collections with the cash-book, and the cash-book with the bank-book.

(12) To pass such orders as they may think fit for realising or otherwise disposing of the outstandings.

VIII.—The Commissioners shall from time to time prepare and submit, for the sanction of Government, a schedule of the establishment and salaries they consider necessary for carrying out the purposes of the Act.

IX.—After the sanction of Government to such schedule, the Commissioners shall have the power to appoint the Inspectors, clerks, etc. They shall also, have power to suspend or remove such officers.

X.—The Commissioners, other than the Vice-President and Secretary, shall receive a fee of Rs. 32 each for attending each meeting of the Commission, the charge being debited to the "Steam-boiler Inspection Fund."

XI.—The Vice-President and Secretary shall be the head of the branch of the office of the Commissioner of Police which is set apart for the work of the Boiler Commission, and shall be responsible to the Commissioner of Police for the good order and management of the office. He shall see that all notices are duly served, and that all fees are duly brought to account and paid into the Bank. He shall himself verify the balance at credit shown in the accounts of the Commissioner's office with the balance in the Bank. He shall refer all matters of importance for the orders of the President and shall supervise the work of the Inspectors.

XII.—When a certificate is required for a boiler and prime-mover, application should be made to the Vice-President and Secretary at the office of the Boiler Commission by the owner or agent in Form No. 1 appended hereto, giving at least 14 days' notice of the date on which the boiler will be ready for inspection. The Vice-President and Secretary, on receipt of an application, will arrange for the inspection to take place on the date notified, if possible; but should that date not prove suitable, he will as soon as possible appoint another, and inform the owner or agent of it.

XIII.—Notices under section 6, requiring owners or persons in charge of boilers to make alterations or additions, shall only be given by the Inspectors in writing, and when any such notice is given, the recommendation shall also be recorded in the diary. When an appeal is heard by the Commission, notice shall be given to the appellant, and any representation that may be made by him will be heard in the presence of the Inspector. The Inspector will also be heard, and local inspection made, if necessary. The decision of the Commission will be given in writing, and such decision shall be final.

XIV.—When an inspection under the Act is completed, the Inspector making it shall prepare a declaration in Form No. 2 appended hereto, in column 8 of which the limit of the working pressure, in pounds per square inch, shall be clearly noted. The declaration shall then be sent to the owner or agent with a statement, in Form No. 3 appended hereto, of the fees and expenses due on account of the inspection, which must be paid before a certificate can be granted for the boiler and prime-mover concerned.

XV.—Upon receipt of the declaration in the office of the Commissioner of Police, a certificate shall be prepared in the form prescribed by the Act (Form No. 4 appended hereto). Such certificate shall be signed by the Inspector and the Vice-President, and shall be delivered to the owner, manager or agent of the steam-boiler inspected, on his paying the fees.

XVI.—For every certificate of inspection granted under the Act, the owner, manager or agent of the steam boiler inspected shall pay to the Commissioner of Police a fee calculated on the horse-power of the steam-boiler, according to the rates laid down in rule XXI and such additional fee in respect of the expense (if any) of the journey of the Inspector to the place where the boiler is situated, as is prescribed in rule XXII.

XVII.—A certificate in Form No. 4 granted under this Act shall not be in force —

(1) after the expiration of one year from the date of the inspection on which the certificate was granted, or

(2) after the expiration of the period, if less than one year, for which the boiler and machinery have been stated in the certificate to be sufficient, or

(3) after notice has been given by the Commissioners to the owner, manager or agent of the steam-boiler to which the certificate relates that they have cancelled or suspended it.

XVIII.—There shall be two kinds of inspection of boilers—

(a) When the certificate granted under this Act is about to expire, or when this has been revoked or suspended under section 8 of the Act and the owner desires that it shall be renewed, a thorough examination, inside and outside, shall be made by one of the Inspectors in person, for which purpose the boilers must be empty, cool and clean, and flues swept; and, if required by the Inspector, any parts or settings must be removed for examination of the boiler in every part

(b) An ordinary inspection may be made by an Inspector at any time for the purpose of ascertaining whether a certificate should be revoked or suspended under section 8 of the Act.

XIX.—The Vice-President and Secretary shall (unless the owner consents to have the boiler ready for inspection on an earlier date approved by the Vice-President and Secretary) give one week's notice of every intended examination under rule XVIII, and warn the owner that if the boiler is not empty, cool, clean and ready for inspection on the date named, there may be delay in issuing or renewing a certificate, which might thus render the owner or person in charge of the boiler liable to a fine of Rs. 500 under section 11 of the Act.

XX.—The Vice-President and Secretary shall submit to the Commission at each meeting the Inspector's reports on the boilers inspected in the form of a diary, which shall be recorded in the office.

XXI.—Fees for the inspection of boilers and delivery of certificates shall be charged according to the following scale:—

								Rs.
Boiler	up to	10	H.-P.	...		...	...	10
,,	above	10	,,	and up to	20	H. P.	...	13

An additional fee of Rs. 50 to that of the above will be charged for the inspection of a boiler on a Sunday.

XXII.—In addition to the above fees, an Inspector's travelling expenses shall be realized from owners whose boilers are not ready for inspection on the first visit made on their application, whether in Calcutta and its suburbs or in Howrah, or in the added areas, for every additional visit paid by the Inspector for the completion of inspection.

XXIII.—Registers shall be kept in the office of the Boiler Commission of all boilers inspected, in which full particulars of the boilers shall be entered in the manner prescribed by the Commissioners, and a number shall be allotted to each boiler corresponding to the number of entry regarding it in the register.

The registered number of a boiler is to be conspicuously cut into the front plate by block type three-eighths of an inch large with a Crown mark, and the initial letter of the register over the figures for Calcutta, Raniganj or other register, as the case may be; the marks being enclosed by a rectangular figure, 2½ inches in length by 1¾ inches in breadth, made with a chisel; and the Inspectors are to state in their declarations that this has been done.

XXIV.—The Commissioners shall from time to time, as may seem necessary, make regulations as to the inspection of steam-boilers and fittings, under the provisions of section 6 of Bengal Act III of 1879.

No. 53Marine.—It has been brought to the notice of the Government, that a number of Arab brokers, known as *Mutawifs*, who are domiciled Bengal Muhammadans from Arabia, spread incorrect reports of cheap passages and persuade their co-religionists in Bengal, by various methods, to undertake the journey to the Hedjaz to perform the Haj. The Muhammadan residents of this province are therefore specially warned to give no credence to information circulated by irresponsible persons from the Hedjaz. Intending pilgrims should apply direct to the Protector of Pilgrims, Bombay, for any information they may require.

This Government also desires to impress upon the Muhammadans, who intend to perform the Haj, the great desirability of being vaccinated or re-vaccinated as the case may be, before leaving their homes for Bombay. The risk of catching the contagion of small-pox which frequently prevails as a virulent epidemic in the holy cities and other places in Arabia would thus be minimized, and the danger of the disease being annually imported into India would be lessened.

No. 1692.—HIS MAJESTY THE KING, EMPEROR OF INDIA, has been pleased to send the following letter to the Princes and peoples of India :—

"TO THE PRINCES AND PEOPLES OF INDIA,—The lamented and unlooked for death of my dearly loved father calls me to ascend the Throne that comes to me as the heir of a great and ancient line. As King and Emperor I greet the Princes, the Ruling Chiefs and all the other dwellers in my Indian dominions. I offer you my heartfelt thanks for the touching and abundant manifestation that this event has called forth from all the diverse races, classes and faiths in India, of loyalty to the Sovereign Crown and personal attachment to its wearers. Queen Victoria of revered memory addressed her Indian subjects and the Heads of Feudatory States when she assumed the direct Government in 1858, and her august son, my father, of honoured and beloved name, commemorated the same most notable event in his address to you fifty years later. These are the Charters of the noble and benignant spirit of Imperial rule, and by that spirit in all my time to come I will faithfully abide. By the wish of His Late Majesty and following his own example I visited India five years ago, accompanied by my Royal Consort We became personally acquainted with great Kingdoms known to history, with monuments of a civilisation older than our own, with ancient customs and ways of life, with Native Rulers, with the peoples, the cities, towns, villages throughout those vast territories. Never can either the vivid impressions or the affectionate associations of that wonderful journey vanish or grow dim. Firmly I confide in your dutiful and active co-operation in the high and arduous tasks that lie before me, and I count upon your ready response to the earnest sympathy with the well-being of India that must ever be the inspiration of my rule."

THIRD AND FINAL FORECAST OF THE SPRING OILSEED CROPS OF BENGAL FOR THE YEAR 1909-10.

THE following note is published for general information:—

E. V. LEVINGE,
Offg. Chief Secy. to the Govt. of Bengal.

The 25th May 1910.

DEPARTMENT OF AGRICULTURE, BENGAL.

THIRD AND FINAL FORECAST OF THE SPRING OILSEED CROPS OF BENGAL, 1909-10.

(On an average of the five years ending 1907-08 the area under linseed and rape and mustard in the territory to which this forecast relates represents about 24·7 and 13·0 per cent., respectively, of the total area under those crops in British India.)

Explanatory.—This is the final of the three forecasts of the spring oilseed crops of Bengal issued under the orders

of the Government of India. It deals with the estimates of the area and outturn of the crops revised after the publication of the second forecast issued in February last.

Character of the season.—The oilseed crops are most important in Bihar and in the Presidency and Chota Nagpur Divisions. The rainfall in September and October though defective in most districts was sufficient for sowings, which began at the normal time. Sowings were however retarded in parts of the Presidency Division owing to heavy rain which accompanied the cyclone of the 17th October last. The rainfall in December and January was beneficial to the crops. In the latter month the rainfall was defective in Bihar: in February also it was below the normal, and the outturn of the crops was affected to some extent in Murshidabad, Patna, Gaya and Hazaribagh. Insects did some injury in parts of Murshidabad, Saran, Muzaffarpur, Darbhanga and Monghyr.

Area sown.—The total area sown this year with the different kinds of oilseeds, til excepted, amounted to 1,824,700 acres as compared with 1,557,900 acres of last year.

Outturn.—From Appendix I attached to the report it will be seen that three districts, viz, Burdwan, Balasore and Ranchi, report a normal crop. In six districts the crop is between 90 and 98 per cent., of the normal, in three districts between 85 and 88 per cent. in ten districts between 74 and 79 per cent., and in 9 districts between 60 and 68 per cent. In Murshidabad and Jessore the crops are estimated at 59 per cent. of the normal. The outturn of the different kinds of spring oilseeds for the whole province amounts, according to the district returns, to 82 per cent. of the normal as against 84 per cent. estimated in the second forecast. The outturn last year was 60 per cent.

Taking 6 maunds per acre as the normal rate of yield for linseed, rape and mustard and 4½ maunds per acre for other oilseeds, the gross yield of all the spring oilseeds for this province works out to 308,100 tons against 189,700 tons estimated last year.

THIRD AND FINAL FORECAST OF THE WHEAT CROP OF BENGAL, 1909-10.

THE following is published for general information.

E. V. LEVINGE,
Offg. Chief Secy. to the Govt. of Bengal.

The 28th May 1910.

DEPARTMENT OF AGRICULTURE, BENGAL.

THIRD AND FINAL FORECAST OF THE WHEAT CROP OF BENGAL, 1909-10.

(On an average of five years ending 1907-08 the area under wheat in the territory to which this forecast relates represents about 4·4 per cent. of the total area under wheat in India. The ratio of the irrigated wheat acreage to total wheat acreage (*a*) in British India and (*b*) in the territory now reported on has, in the five years ending 1907-08, averaged (*a*) 38·7 per cent. and (*b*) 2·2 per cent., respectively.)

Character of the season.—Wheat is cultivated chiefly in Bihar. The less important districts are Nadia, Murshidabad and Hazaribagh. In September and October rainfall was general though defective in most districts, and there was sufficient moisture in the soil for sowings, which began at the normal time. The rain received in December and January was beneficial to the crop. But the rainfall in the latter month was below the normal; and the short rainfall of February affected the outturn in parts of North Bihar.

Area sown.—The total area sown with wheat is estimated at 1,427,900 acres as compared with 1,255,200 acres last year. The increase is due mainly to the favourable conditions which prevailed during the period of sowing.

Outturn.—In Bihar, which contains 87 per cent. of the total wheat area, the outturn has been estimated at 88 per cent. of the normal. In Murshidabad, Nadia and Hazaribagh, the other districts in which the crop is important, it is estimated at 73 to 85 per cent. For the whole province the outturn according to the District Officer's estimates amounts to 87 per cent.

According to these returns the gross yield for the province works out to 540,700 tons, as against 319,800 tons of last year.

Food-stocks and prices of food grains.—The outturns of the three harvests, viz., *aghani*, *bhadoi* and *rabi*, were estimated by this Department at 110, 86 and 90 per cent., respectively. The food-stocks of the previous harvest are reported to be

small in most districts of Bihar and of the Presidency Division, and also in Howrah, Cuttack and Palamau. The following table shows the prices of wheat in Calcutta and the average prices in selected important wheat-growing districts as they stood on the 15th March of each year from 1907 to 1910:—

Exports of wheat from Calcutta by sea during the ten months, from April 1909 to January 1910, amounted to 3,540,084 maunds against 62,217 maunds for the corresponding period of last year, and the imports into Calcutta by all routes for the same periods aggregated 7,195,083 maunds and 3,071,489 maunds, respectively.

The estimated area shown in column 6 of the second forecast was 17,300 acres, but it appears now that it did not include the figures for Kumarkhali thana from which no report was received by the Subdivisional Officer of Kushtia. Hence the figure has been raised to 18,000 in this forecast. The weather and rainfall conditions were favourable. The date of harvesting was normal.

Mr. M. J. Scobie, Secretary to the Government of Bengal, Public Works Department.

Mr. W. Banks Gwyther, Officiating Secretary to the Government of Eastern Bengal and Assam, Public Works Department.

Mr. G. W. Küchler, Officiating Director of Public Instruction, Bengal.

Mr. B. Heaton, Principal, Civil Engineering College, Sibpur.

As a result of this Conference and of subsequent discussion it is recognized—

(*a*) that the Civil Engineering College possesses a claim, in respect of the transferred districts of Bengal, that the Public Works Department of Eastern Bengal and Assam should receive Graduates in Civil Engineering of the Civil Engineering College for practical training; this claim being accentuated by reason of the reservation for candidates domiciled in Eastern Bengal and Assam of one-third of the vacancies for regular students for admission to the Engineer Department of the Civil Engineering College;

(*b*) that the method of selection of candidates for admission into the Public Works Department of both Provinces should be based on the results of the practical examination held by the Public Works Department at the end of the period of practical training;

(*c*) that the guaranteed post of Assistant Engineer should be awarded to that candidate, being a Graduate in Civil Engineering of the Civil Engineering College, Sibpur, who should head the list of successful candidates at the practical examination, irrespective of the domicile of his family and also of the Province in the Public Works Department of which he completed the course of his practical training;

(*d*) that in selecting students of the Engineer Department of the Civil Engineering College to fill posts in the Subordinate grades domicile shall not be taken into account, and that, so far as possible, 1st grade Overseer appointments should be offered to them;

(*e*) that certain changes are necessary in the constitution of the Board of Examiners to secure the representation of the Public Works Department of both Provinces, and also in the subjects and scheme of examination;

(*f*) that in addition to students of the Apprentice Department of the Civil Engineering College, Sibpur, and of the Bihar School of Engineering now received for practical training, candidates should also be selected from amongst the qualified students of the Dacca School of Engineering. Each Government, in making appointments from amongst such candidates qualifying at the practical examination held at the end of the period of practical training, should show preference to those trained at the institutions within its jurisdiction;

(*g*) that since the status of the Bihar School of Engineering has been raised and also that of the Dacca School of Engineering, arrangements having been made to enable their students to complete the full Foreman-Mechanic course (by transfer to the Civil Engineering College if such be necessary), students of these institutions shall be required to have qualified by completing the full practical course in the workshops of any one of the three institutions before being admitted to the course of practical training under the Public Works Department.

3. The students who will be permitted to compete for these appointments will be determined by the rules in the following Resolution. They will be required to undergo the practical training arranged for by the Public Works Department under the terms of this Resolution, and will, on the satisfactory completion of it, be submitted to the practical examination referred to.

4. All students on practical training may be given an allowance of Rs. 50 monthly in the case of Indians, and Rs. 100 in the case of Europeans or Eurasians. Of this allowance, Rs. 10 shall in all cases be retained until the completion of the training, and shall be paid over to the student only on receipt of a satisfactory report from the Examining Board.

They may also be granted a conveyance allowance, not exceeding Rs. 30 monthly, of such amount as may be deemed necessary by the Chief Engineer of the Public Works Department of the Province in which they are serving, and may be allowed the travelling allowance permissible to Overseers on first joining or leaving their practical training, and when it is necessary in the interests of their practical training to transfer them to another division.

5. The rules in the following Resolution will be brought into effect with reference to those students who proceed to their practical training in the year 1910:—

Resolution I.—One appointment as Apprentice Engineer will be made each year from the regular students who have completed the full course of study in the Civil Engineering Branch of the Engineering Department of the Civil Engineering College and have passed the final examination, either University or College, held at the end of this course within not more than six academic years of their first admission to the 1st year class of that College, and who have qualified in the year's practical training in the Public Works Department.

The Apprentice Engineer thus appointed shall be posted in one year out of three under the Government of Eastern Bengal and Assam, and the remaining two years to Bengal. If the Apprentice Engineer serves his apprenticeship satisfactorily, he will be permanently appointed as an Assistant Engineer in the Provincial Service of the Public Works Department.

II.—In alternate years one Upper Subordinate of the Public Works Department will also be appointed to be an Assistant Engineer in the same Service.

III.—The number of regular students of the Civil Engineering Branch of the Engineer Department of the Civil Engineering College, Sibpur, who, having passed the final College or University Examination held at the end of the College course of training, will be received for practical training, will be six, four of whom will be posted to Bengal and two to Eastern Bengal and Assam.

The practical training will be from the 1st November to the 31st October of the following year.

IV.—The Lieutenant-Governor of Bengal will select five students who have, in the year, obtained the Upper Subordinate or Sub-Engineer Certificate of the Joint Technical Examination Board and have been trained in one of the following institutions:—

Apprentice Department, Civil Engineering College, Sibpur ...	3
Bihar School of Engineering	2

The Lieutenant-Governor of Eastern Bengal and Assam will select three students similarly qualified from the Dacca School of Engineering.

These eight candidates will undergo a similar practical training to that of the regular students of the Engineering Department of the Civil Engineering College.

V.—The "practical training" in the Public Works Department will be conducted as it has hitherto been: when it is over, a Board of Examiners will be appointed by Government to conduct the practical examination, which will be designed to test candidates in those qualities which, independently of book work and theory, go far to make an efficient officer. The Board should be composed as follows:—

(*i*) A Superintending Engineer of the Bengal Public Works Department	*President.*
(*ii*) An Executive Engineer, Eastern Bengal and Assam, Public Works Department.	*Members.*
(*iii*) A Professor of Civil Engineering of the Civil Engineering College, Sibpur.	

The examination will be essentially a practical one: it will, as far as possible, be conducted orally and in the field. The examination shall be held in the month of November of each year.

VII. The Local Government, in reviewing the results, will take into consideration the reports on the character and general fitness of the candidates, which are submitted by the officers under whom they have served during their practical training. They will take the marks as awarded under Schedule I of Rule VI into account in deciding the award of the guaranteed post of Assistant Engineer, and will arrange the candidates on a list in order of merit, the first candidate on the list being appointed as Apprentice Engineer on probation.

VIII. In deciding the filling of the posts in the Subordinate grades, they will prepare a list of merit in a similar way to that described in Rule VII, making use of the marks awarded in Schedule II.

Those who are *ex*-students of the Engineer Department of the Civil Engineering College will usually be appointed to the 1st grade of Overseers, while those who hold the Upper Subordinate or Sub-Engineer Certificate of the Joint Technical Examination Board will be placed in the 2nd grade, the Bengal Government showing preference to those trained at Bengal institutions.

This Resolution only affects paragraph 1 of Bengal Government Resolution No. 3297 E., of 13th December 1893; the other paragraphs of that Resolution remain in force.

ORDER—Ordered that a copy of this Resolution be forwarded to the General (Education) Department of this Government; to the Director of Public Instruction, Bengal; to the Principals, Civil Engineering College, Sibpur, and the Bihar School of Engineering; to the Commissioner, Patna Division, and the Secretary to the Government of Eastern Bengal and Assam, Public Works Department, for information; and that it be published in the *Calcutta Gazette*.

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

65. One Examiner at least shall be present during the whole time of the Examination in writing.

66. The Board of Examiners shall, after each Examination, report the result thereof to the Committee or Board of Studies, who shall submit to the Council the names of those students (if any) who are in their opinion entitled to receive Pass or Honour Certificates or to obtain studentships.

DARJEELING, THE 4TH JUNE 1910.

RESOLUTION No. 454T.—M.

READ—

The original report, dated the 21st February 1910, of a Committee appointed to enquire into the conduct of the Calcutta Fire Brigade in connection with a fire in Darmahatta Street on the 21st January 1910.

The Resolution of this Government, No. 732M., dated the 24th March 1910, recorded thereon.

The supplementary report of the Committee dated the 28th April 1910.

The answers to the charges framed against them filed by Superintendent Haultain and Engineer Chase, and the remarks of the Commissioner of Police, Calcutta, thereon.

In the Resolution dated the 24th March 1910, quoted in the preamble, the Lieutenant-Governor referred, for the opinion of the Commissioner of Police,

the various suggestions for the improvement of the organization, etc., of the Calcutta Fire Brigade made by the Committee which enquired into the circumstances of the fire in Dalmahatta Street which occurred on the 21st January 1910. As regards the conduct of the members of the Brigade on that occasion he accepted the finding that bribes had been demanded and received by certain of them for the performance of their duty, while iron safes, which had been found among the débris of the premises destroyed, had been broken open and rifled. Since, however, the enquiries of the Committee had failed to detect the particular officers at fault, His Honour decided that it was necessary, in the interests of the discipline of the Force, to make a further attempt to do so. The Committee was, therefore, requested to reopen its enquiry, and an indemnity was offered to any persons who would make a true and full disclosure of all facts connected with the giving or offering of illegal gratifications. At the same time the attention of the Committee was invited to the desirability of following up such clues as might be derived from the circumstances under which the Commissioner of Police had dismissed certain European Sergeants on the charge of being connected with the rifling of safes, and from the admitted fact that Rs. 400 in notes was received at the time of the fire by Superintendent Haultain.

2. The Committee has now completed its supplementary enquiry, and the Lieutenant-Governor desires to express his thanks to its members for the thoroughness with which the task has been discharged. Although handicapped, even on this second occasion, by the unwillingness of witnesses to come forward, and by the delays incidental to their doing so when their attendance could not be enforced by law, the Committee has carefully sifted the testimony which was adduced, and has spared no effort to arrive at the actual facts. The Lieutenant-Governor's acknowledgements are also due to the private gentlemen who assisted the Committee in its enquiry, and in particular to Babu Radha Churn Pal and Dr. Haridhan Dutt.

3. The further enquiry which has now been made, and the statements of the fresh witnesses who have presented themselves under the protection of the indemnity offered them against prosecution, have conclusively established that bribes were demanded and extorted on an extensive scale by members of the Fire Brigade under threats of water being otherwise withheld; while safes were broken open, and bystanders and others who attempted to interfere were driven away by the hose being turned on to them. With the rifling of safes the European staff seems to have been mainly concerned, but the *khalasis* and other subordinates also participated in the taking of money as bribes. In the matter of identification no definite results have been arrived at except in the two cases which are dealt with below; while in a third instance grave suspicion, falling short, however, of conclusive proof, is established. Although this result is greatly to be regretted, it is not altogether a matter for surprise, since in the excitement of the fire, intensified by smoke and darkness, it must have been difficult for witnesses to identify with certainty the members of the Brigade at fault, especially if the latter were begrimed with dirt and soot.

4. In connection with the breaking open of safes the Commissioner of Police had already taken action on the 3rd February 1910, prior to the appointment of the present Committee. Proceedings were drawn up against eight European Sergeants who were known to have been on duty in the vicinity at the time. Although there was no identification of any of them as the actual culprits, it was certain that two of them, and perhaps others, were actually guilty. After consideration of all the facts, three men were exonerated, and one was given the benefit of the doubt in view of his previous excellent character. The remainder were discharged from the Brigade, and the Lieutenant-Governor is of opinion that the Commissioner of Police was fully justified in this finding.

5. The three cases in which the Committee has obtained evidence against particular individuals are dealt with below:—

(*a*) *As against Superintendent Haultain.*—It is admitted by Superintendent Haultain that he attended the fire in his capacity as Superintendent of the Brigade, and took an active part in directing operations towards saving the house and valuable property of Babu Narendra Krishna Ghose. While at the

scene of the fire he was offered money by a Babu, which he refused. Subsequently a parcel was pushed into his pocket by one Upendra Nath Dutt. and his attention was attracted by this being done, although he claims to have been unaware of its contents and to have taken no further notice of the incident at the time. On the 1st February he handed over the contents of the parcel, being Rs. 400 in notes, to the Deputy Commissioner of Police, with the statement that he first discovered their nature on the afternoon of the 24th January, when he happened to examine his coat pockets. He alleged that he was frightened when he found that the money was in his possession, and had delayed to consult his friends and to consider what had best be done. At the time he made his statement no allegations had been made against him personally, but rumours were in the air of misconduct on the part of the Brigade Upendra Nath Dutt, who admits that he distributed money to various members of the Brigade on behalf of the Ghose family as a reward for work done in attempting to save their house, corroborates Mr. Haultain as to the latter having first refused money when offered to him, but alleges that he subsequently placed the notes in the Superintendent's pocket with the remark that they were given as a *bakshish* for hard work. No reply was made by Superintendent Haultain, but the witness is clear in his statement that the Superintendent knew what was being done. The Committee considers that the payments made by Upendra Nath Dutt were not made in consequence of solicitations by the men of the Brigade, but they are unable to believe that Superintendent Haultain was not aware, at the time, of the nature of the package which was being placed in his pocket.

After perusal of the statements above, and those of the other incidental witnesses mentioned by the Committee, the Lieutenant-Governor is of opinion that no other finding than that of the Committee is possible. The points in Superintendent Haultain's favour are that he himself was the first to bring the incident to notice, and that he has an excellent record of service in the Police. On the other hand he only reported the incident after a delay of ten days after the fire, and seven days after he admits that he became aware of it, while complaints of misbehaviour on the part of members had by that time got abroad. From his experience in the Police he must have been well aware of the serious nature of the offence of taking money in the discharge of his official duties, even although he had not actually demanded it, and his fault was aggravated by the fact that, as Superintendent of the Brigade, it was part of his duty to prevent the very malpractices in which he participated. As Superintendent, he should have been aware of the misconduct of his subordinates, but even had he been so, his own guilty knowledge obviously debarred him from reporting it. Looking to his previous connection with the Police, the Lieutenant-Governor regrets that he cannot take a more lenient view of the case; but the charge cannot possibly be ignored or treated lightly, and Superintendent Haultain's dismissal from the Force is accordingly ordered. For the reasons already stated, the Lieutenant-Governor has come to this conclusion with much reluctance. Although in the interests of discipline and public morality it is impossible to retain Mr. Haultain in the service of Government, it is not unreasonable that his long service of 24 years and the good work he has done in other capacities should receive recognition, and the Lieutenant-Governor will endeavour to secure that this shall be done.

(*b*) *As against Engineer Chase.*—The evidence against Engineer Chase is more open to dispute than in the case of Superintendent Haultain, and the Committee is divided in its finding. The charge is that in three instances, the evidence regarding which is fully detailed in the report of the Committee, he took money in return for his efforts to protect the property of the persons concerned. The defence is a total denial of the allegations. The Committee has carefully weighed the evidence, and while Mr. Tegart considers that Mr. Chase should be given the benefit of the doubt, the Lieutenant-Governor agrees with the President and Mr. Payne in holding the accusation to be proved. If so, there are no extenuating circumstances, and the dismissal of Engineer Chase, therefore, is also directed, on the charge of having demanded and accepted illegal gratifications in the discharge of his official duties.

(*c*) *As against Engineer Jarrett.*—The conclusion of the Committee in respect of this officer is that there is a strong case of suspicion against him of having demanded and taken money, but that the evidence falls short of positive proof. In these circumstances, no further action can be taken against him, but the Lieutenant-Governor directs that he shall be transferred to some duty in which he will work under close supervision.

6. The question of the reorganization of the Calcutta Fire Brigade is still under consideration. The Committee has made a number of valuable recommendations, and these, together with a note thereon by Mr. F. L. Halliday and the provisional conclusions of the Lieutenant-Governor, have been referred to the Commissioner of Police, whose detailed proposals will shortly be submitted. When they are received they will be communicated to the municipalities interested; but it is evident as an important lesson of this deplorable scandal that the Brigade requires a strong body of superior officers, as distinguished from the rank and file, of such status that their mere presence will suffice to prevent a recurrence of the malpractices which have characterized this particular fire. Their employment will necessitate increased expenditure in connection with the Brigade, but the Lieutenant-Governor considers that they must be provided for in the new organization, and if the probity of the Force is thereby secured, the gain to the public will more than compensate for the additional cost involved.

ORD R.—Ordered that copies of the above Resolution and of the Report of the Committee be published in the *Calcutta Gazette* for general information, and also that it be communicated to the Commissioners of the Presidency and Burdwan Divisions, the Chairman of the Calcutta Corporation, and the Commissioner of Police, Calcutta, with the direction (in the latter case) that action be taken as ordered in the cases of Superintendent Haultain and Engineers Chase and Jarrett.

By order of the Lieutenant-Governor of Bengal,

H. WHEELER,
Secretary to the Govt. of Bengal.

Supplementary Report of the Committee, consisting of the Hon'ble Mr. F. A. Slacke, C.S.I, President, Mr. C. F. Payne, and Mr. C. A. Tegart, appointed by Government to enquire into the circumstances connected with the fire which occurred in Darmahatta Street, Calcutta, on the morning of the 21st January 1910.

Preliminary.—In accordance with Government resolution No. 732M., upon the original report of the Committee, the enquiry regarding the fire which occurred on the early morning of the 21st January 1910 in Darmahatta Street was reopened on the 29th March 1910, after an indemnity from prosecution for having offered or given an illegal gratification to any member of the Fire Brigade had been widely published for the information of all persons who might be prepared to make a true and full disclosure of all the facts within their knowledge. This supplementary enquiry has been confined, in terms of Government letter No. 734M., dated the 26th March 1910, to the discovery of the actual persons who were guilty of demanding or accepting illegal gratifications and testing the truth of the charges made against them.

The public enquiry, apart from the consultations held by the members of the Committee, occupied eight days, and fifty-four witnesses were examined. Only five of these were examined in the course of the original enquiry, the rest (with the exception of eight witnesses connected with, or produced by, the Fire Brigade) having all come forward on the strength of the indemnity offered. All the witnesses (twenty-four in number) who stated that they could identify, or that they might be able to identify, men of the Fire Brigade who had demanded or accepted an illegal gratification were directed to be present at the Police Head-Quarters at Lal Bazar to point out the men referred to. Only seventeen of these actually came to the identification parade, and seven of them succeeded identifying between them three members of the Fire Brigade, of whom one did not go to the fire at all. Throughout the enquiry the Committee experienced the greatest difficulty in securing the punctual attendance of the witnesses, and they are much indebted to Babu Radha Charan Pal and Dr. Haridhan Dutt for their assistance in his respect.

The Committee are of opinion that the people of the locality failed to give the help that might reasonably be expected from them in bringing to light the actual malpractices which occurred at this fire. In dealing with cases of this kind the Committee consider it is very essential to bear in mind that the men of the Fire Brigade,—men on low pay,—are subjected to great temptations, for undoubtedly voluntary offers of large sums are made to them by persons anxious with regard to their own property. This was one of the reasons which led the Committee in their former report to make the recommendation they did with regard to a whole-time Superintendent of the Fire Brigade.

Very little use could be made of the evidence recorded during the course of the original enquiry, as none of the witnesses then examined could identify any member of the Fire Brigade. A few, however, who it was thought might be able to identify some members of the Fire Brigade if they were confronted with them were directed to attend the identification parade, but none of them succeeded in picking out any one. The only papers in the Police Office relating to the matter under report were those dealing with the dismissal of four European Sergeants on suspicion of being concerned in the looting of safes. These papers have been perused by the Committee and from part of this record ; but they contain nothing in the nature of identification, and no clue worth following up could be gathered from them. The Committee held a parade of, and questioned individually, all the native police who were present at the fire, with the exception of a few who could not for various reasons be present. Of those so examined, numbering about 150, no one could give any information as to the payment or demand of illegal gratifications or as to the looting of safes.

Out of the whole of the evidence recorded and the other enquiries made by the Committee, only two cases have emerged in which the charges have

been substantiated against individual members of the Fire Brigade. These cases, which are against Superintendent Haultain and Engineer Chase, are dealt with at length below. Certain other cases which in the opinion of the Committee are not proved, including a charge of taking money against Engineer Jarrett who was described but not identified, are also commented on.

The case against Superintendent Haultain.—The evidence with regard to this matter is contained in the statements made by the following persons :—

	Witness No.
Babu Saral Chand Mitter	6
Superintendent Haultain	9
Babu Upendra Nath Dutt	12
„ Rajendra Krishna Ghose	15
„ Pyari Mohan Chatterjee	16
„ Panna Lal Chowdhury	17
Mr. Lindsay	33
„ Watson	44
Babu Sitanath Banerjee	45
„ Ganendra Krishna Ghose	46

Almost opposite where Gobind Shah's Lane and Darmahatta Street meet is the house of the Ghose family. This house is a very large masonry building, and is said to have contained many valuable works of art and books. On the early morning of the 21st soon after this house caught fire, the Ghose family sent for Babu Upendra Nath Dutt to come and help them. He came and took on himself the direction of affairs with regard to the fire so far as the Ghose family were concerned. Babu Upendra Nath Dutt arrived just before Superintendent Haultain came. The latter arrived about 6-30 A M. on the morning of Friday, the 21st January. Prior to Superintendent Haultain's arrival Babu Upendra Nath Dutt had been asked by two Europeans for Rs. 4,000 if he wanted the house to be saved. The Babu promised nothing, and subsequently was unable at the identification parade held by the Committee to identify the men who had so asked him; nor is there any other proof in support of this statement. Some time after Superintendent Haultain arrived, Upendra Babu came to the conclusion that if some money was paid more work would be done; but he cannot remember whether any one else other than the two Europeans above referred to asked him for money. Upendra Babu therefore went to the Ghose family Superintendent, Babu Pyari Mohan Chatterjee, and asked him for some money for distribution among the Brigade. The Superintendent gave him a certain amount; and on the arrival of the cashier, Babu Panna Lal Chowdhury, that officer was directed by Babu Rajendra Ghose to give to Upendra Babu for payment to the Fire Brigade what sums he might require from time to time. The total amount paid from the funds of the Ghose family to or for the Fire Brigade is by the accounts of the cashier Rs. 1,096-8-9. While distributing the money, which was in the shape of notes, to the Fire Brigade, Upendra Babu says he was accompanied by a durwan of the Ghose's establishment. This durwan held the supply of notes, from which apparently Upendra Babu took what he wanted from time to time. We have tried to get hold of this durwan but have failed, as no one can identify him or give his name. The only traceable notes used by Upendra Babu when distributing the money amongst the men of the Fire Brigade are the two 100-rupee notes he gave to Superintendent Haultain.

While working on the house Superintendent Haultain was offered some notes by Upendra Babu, who was told to go away. Subsequently, when the fire at the house had apparently been got under, Superintendent Haultain went away to see what was being done in other parts of the fire area. While he was away a part of the roof of the house fell in and the fire broke out again. On this happening Upendra Babu went after Superintendent Haultain and brought him back to the house. On their way back their route was along Gobind Shah's Lane; and it was while in this lane, by Superintendent Haultain's account, that Upendra Babu, as they were going along, put the bundle of notes into Superintendent Haultain's left hand coat pocket, which he could easily do as the coat was not buttoned. The cashier stated he had

no vouchers; but the Superintendent, Babu Pyari Mohan Chatterjee, produced a list showing the various sums paid out, and the items paid by Upendra Babu bore his initials, which the latter gave two or three days after the fire. This list was not made at the time, and, except with regard to Superintendent Haultain, it gives no clue as to the persons to whom the payments were made; nor could Upendra Babu identify any member of the Fire Brigade, except Superintendent Haultain, to whom he had made any payment. Upendra Babu also says that he gave Engineer Chase's children, who came to the scene of the fire, 10 or 20 rupees; but in the opinion of the Committee no charge could be framed against Mr. Chase on this account, as there is nothing to show that he knew anything about this alleged payment; and moreover when the list was initialled by the Babu he did not initial the entries according to his own memory but by what he was told he had said at the time the payments were made, and there is nothing to support his statement in regard to these children. It seems to the Committee from what has been stated before them that, with regard to the payments made for the Ghose family, such were not made in consequence of solicitations by the men of the Brigade. Upendra Babu's story distinctly proves this, and his account on this point is confirmed by the statement of Mr. Lindsay. Had the payments made by the Ghose family been due to illegal pressure on the part of the men of the Fire Brigade, the Committee cannot believe that Upendra Babu and the Ghose family would have spoken so eulogistically to Mr. Lindsay of the work of the Fire Brigade as they did on the 21st, and would not have spoken of the payments they had been compelled to make.

We are unable to believe that Superintendent Haultain was not aware at the time of the nature of what was being put into his pocket. The fact that the man who did it was the man who had previously offered him the notes must have led him to guess what was being given to him even if he did not hear what Upendra Babu says he told him at the time, viz., "You have worked hard and this is given you as 'bucksheesh.'" Superintendent Haultain states that owing to official duties he did not remember about the package that Upendra Babu had put into the pocket of his fire-coat, until Monday, the 24th January, and that it was then that he found out the nature of its contents. This scared him, and for some days he thought over the matter and then applied to some friends for advice; and acting on their advice informed the Commissioner of Police on the 1st February. This delay and the fact that he allowed himself to take the money are the only misdeeds which can be attributed to Superintendent Haultain. It is most regrettable that an officer occupying the position that Superintendent Haultain does, and one who has done such excellent service, should have failed, until the Government was about to order an enquiry into the facts attending this fire, to bring to the notice of his superior officer the fact that he had been given Rs. 400 as a reward for work done by him in connection with his official duties.

In the opinion of the Committee the charge against Superintendent Haultain would not have been proved if it had not been for the fact that he himself brought the matter to the notice of the Commissioner of Police; for had he destroyed the notes and denied the occurrence, then,—considering the many serious discrepancies in the evidence, the very excited state in which Upendra Babu evidently was at the time of the occurrence, Superintendent Haultain's long and unblemished good character, and the doubts which attach to the list of payments,—the Committee could not have credited the story as told by Upendra Babu. The notes have been made over to the Deputy Commissioner of Police, Mr. Tegart, and for their ultimate disposal the orders of Government are awaited.

The case against Engineer Chase.—The case against Mr. Chase rests principally on the evidence of four witnesses, namely, Chandra Shekhar Naik, Jotindra Nath Biswas, Makhan Lal Naik, and Radha Kissen Bagla. Mr. Chase was the Engineer in charge of the "Niagara," the first fire engine to arrive on the scene. He stationed his engine in Nimtolla Ghat Street to the north of the fire; and there can be no doubt that the efforts of the men with that engine were mainly directed towards the saving of the "dâl gola" of the witness Chandra Shekhar Naik, which was in fact almost entirely saved while

all the surrounding "golas" were burnt. This fact struck the Committee very forcibly on their first visit to the scene of the fire, before any evidence had been recorded at all. The allegation is that Mr. Chase demanded Rs. 1,000 from Chandra Shekhar Naik to save his "gola" immediately he arrived at the scene of the fire. Chandra Shekhar Naik, who is a man of business in comparatively wealthy circumstances, at once offered Rs. 500, which Mr. Chase agreed to accept. He then sent his sarkar, Makhan Lal Naik, for the money; and within 5 or 10 minutes Rs. 400 in 10-rupee notes was handed over to Mr. Chase; and the water was directed on the "gola" and the structures at the back, from which the fire was likely to spread to this "gola." The fact that only Rs. 400 was actually paid, and not Rs. 500, as agreed, is explained by Makhan Lal Naik, who says that he handed over a bundle of 10-rupee notes representing Rs. 400 in all to his master, who believing the bundle to contain Rs. 500 gave it over to Mr. Chase, who took it and went away to his engine. Makhan Lal Naik did not tell his master of the difference until afterwards. This occurrence is testified to by (1) Chandra Shekhar Naik, (2) Jotindra Nath Biswas, and (3) Makhan Lal Naik. All of these men were present both when the money was demanded and when it was paid, and their stories substantially agree. Two of them, Chandra Shekhar Naik and Jotindra Nath Biswas, identified Mr. Chase in the presence of the Committee from among a large number of European Sergeants and all the Engineers (except the Chief Engineer, who was ill) of the Fire Brigade. The circumstances of the identification were by no means easy for the witnesses, and, though one of the identifiers could only say that he thought Mr. Chase was the man, both picked him out without hesitation. Makhan Lal Naik, the third witness to this occurrence, could not identify any one; but he clearly indicates in his evidence that the man to whom the money was paid was the Engineer in charge of the engine in Nimtolla Ghat Street, which was Mr. Chase.

The second occurrence in which Mr. Chase is implicated is alleged to have taken place shortly after 9-30 P.M. on the night of the 21st January. Mr. Chase was then taking his engine back to Lal Bazar, and Chandra Shekhar Naik begged him not to do so. Mr. Chase is then said to have offered to let him have a hose to attach to the street hydrant if he gave him Rs. 100. Chandra Shekhar Naik agreed to this, and paid him the money in the presence of Jotindra Nath Biswas and Haridas Mandal. Makhan Lal Naik was not present when the money was paid, but he testifies that his master took Rs. 100 from him in 10-rupee notes to pay to a "sahib" of the Fire Brigade at about that time. Haridas Mandal was not able to identify Mr. Chase, but he describes him in his evidence as the Engineer in charge of the fire engine which was stationed in Nimtolla Ghat Street.

The third charge in respect of which Mr. Chase has been identified is brought by Radha Kissen Bagla, a Marwari, who owns a timber "gola" at Nimtolla and who had advanced money to other timber merchants there and was consequently interested in the saving of their property. He states that he approached the Engineer of the fire engine in Nimtolla Ghat Street before the fire reached his "gola," and asked him to turn a hose on it. The Engineer said that he would do so if he "got something." Radha Kissen Bagla then borrowed Rs. 100 from Bhikraj Sagar Mull, whose timber yard is adjacent to his own, and paid it to the Engineer. The result was unsatisfactory as far as Radha Kissen Bagla was concerned, as the Engineer after taking the money did not turn any water on his "gola." Later on, however, he gave Radha Kissen Bagla a length of hose which he attached to the street hydrant and turned the water on his timber. Radha Kissen Bagla also states that the Engineer went with him to Sagar Mull's "gola" near the river and telephoned for a second engine. This Mr. Chase admits that he did. Radha Kissen Bagla was doutful whether he could identify the man to whom he paid the money, but at the identification parade he picked out Mr. Chase as the man. The only corroborative evidence in this case is that of Muralidhar, of the firm of Bhikraj Sagar Mull, who says that he lent Rs. 100 to Radha Kissen Bagla on the night of the fire. He was not informed at the time what the money was wanted for, but Rs. 40 was subsequently returned to him, the balance of Rs. 60 being said to have been expended on his account in

connection with the fire. Sagar Mull himself is in Moulmein, and two durwans who were standing near when the money was paid to Mr. Chase are also out of Calcutta, and their attendance could not be secured.

The payments referred to in connection with the above three occurrences are also supported by entries in account books. The payments made by Chandra Shekhar Naik, which amounted in all to about Rs. 80, were entered in gross in his cash book. These payments included one 100-rupee note, the number of which has been ascertained from his books by a process of elimination. This note was, however, given to a fireman, and not to Mr. Chase, and it has not yet been traced. Radha Kissen Bagla produces his account books to show that he paid Rs. 195-2 in all to the Brigade. He also produces his suspense account to prove certain loans which he made for payment to the firemen. Muralidhar, too, produces an account book which shows a payment of Rs. 60 to the Fire Brigade.

Mr. Chase, through his pleader, cross-examined Chandra Shekhar Naik, Jotindra Nath Biswas, and Radha Kissen Bagla. He also produced five witnesses to rebut the charges. Four of these are connected with the Fire Brigade and came to the fire with Mr. Chase's engine. They all say that Mr. Chase was attending to his engine the whole time, and that he neither demanded nor accepted any money from any one in their presence. The only outsider called by him was a Mr. Russell, who arrived at the fire at about 4-30 A.M. and who stood by Mr. Chase's engine for some time. He says that he did not see Mr. Chase demand or accept any money, and that he had to watch his engine constantly to prevent it from racing owing to the shortness of water. He is an Engineer himself, and consequently noticed this fact in particular. Mr. Chase however admits that it was not till 5 A.M. that the pressure of water began to drop, and he says that till then he had sufficient water to keep his engine going at full speed. The evidence of these witnesses is therefore purely negative; and they do not prove very much as against the testimony on the other side, which was practically unshaken by the somewhat weak cross-examination to which the witnesses were subjected.

As regards the guilt of Mr. Chase the Committee are divided in opinion. The President and Mr. Payne agree in thinking that the charges have been established; but Mr. Tegart is of opinion that the evidence is not sufficiently conclusive, and thinks that Mr. Chase should be given the benefit of the doubt. Mr. Tegart's reasons for holding this opinion are given in a Note of dissent at the end of this report. In the opinion of the President and Mr. Payne no good reason has been advanced why the witnesses should bring a false charge against Mr. Chase. It is admitted that his engine was working all day just outside Chandra Shekhar Naik's "dâl gola," and the witnesses had therefore ample opportunities of observing him; and it is most improbable that they should all be making the same mistake. The suggestion thrown out by Mr. Chase himself,—who denies the charge *in toto*,—that he is well known in Calcutta owing to his long connection with the Fire Brigade, is hardly sufficient to account for this unanimity of evidence. Besides, the fact that this particular "gola" was saved (or practically saved) from the fire while all the surrounding "golas" were burnt cannot be explained except by the fact that special attention was directed towards it. This circumstance impressed the Committee very strongly when they visited the spot, before any charge had been made against Mr. Chase; and it certainly tends to create a suspicion that there was some special reason why the energies of the Fire Brigade, as far as the work of the engine was concerned, were practically confined to saving one man's property. The incident of the payment of Rs. 400 in the hurry of the moment instead of Rs. 500 also struck the Committee as too realistic to be otherwise than true. Mr. Chase points out that the officer in charge of the operations of the Brigade was Chief Engineer Milne, and says that he was the only man who could direct the firemen to play upon a particular "gola." Each Engineer, however, undoubtedly has a large share in the control of the operations of his own engine; and it is at least clear that the witnesses thought that Mr. Chase could assist them in saving their property. There is no reason to suppose that Mr. Chase has been mistaken for Mr. Milne, and that the latter was the actual recipient of the

money. All the witnesses, besides (in some cases) identifying Mr. Chase, agree that the man to whom the money was paid was the Engineer in charge of the fire engine stationed in Nimtolla Ghat Street. Mr. Chase has a long and untarnished service to his credit, which should certainly be taken into account in his favour; but, as already stated, in the opinion of the majority of the Committee he has been guilty of demanding and accepting illegal gratifications.

Other cases not proved.—In addition to the cases referred to above in connection with which Superintendent Haultain and Engineer Chase were identified by the witnesses, ten other specific instances are referred to in which the individuals to whom the alleged payments were made could not be identified by the persons who stated they had actually paid the money, or by the witnesses in whose presence payment was said to have been made.

The facts of these cases are given briefly below. The first five of them apparently refer to Engineer Jarrett of the Howrah engine, who up till about 9 A.M. had no other European or Eurasian with him. Engineer Jarrett has been examined and denies the charge. In the opinion of the Committee the case against him is one of strong suspicion only.

(1) Radha Kissen Bagla stated that, subsequent to the payment of Rs. 100 to Engineer Chase, he paid a "sahib" of the engine opposite No. 67—24 Strand Road, Rs. 100. He says no one else was present when this money was paid, and that the money was brought from his own office by his durwan Ranchoo, who has since gone to the Upper Provinces. Although this witness was telegraphed for, his attendance could not be secured. Radha Kissen stated that he could not identify the "sahib" referred to. From the description he gives of the engine, however, it is clear that he refers to the Howrah fire engine, to which only one European,—Engineer Jarrett,—is attached.

In connection with this case Babu Barada Kanta Roy Choudhuri (pages 23 and 24 of the printed evidence) stated at the original enquiry that he paid Rs. 10 to the Engineer in charge of the Howrah fire engine, and described Engineer Jarrett as the man; but when he was confronted with him in his fire uniform with three other men similarly dressed, he stated that he was not among them.

(2) The second case is referred to by Narain Misser, a durwan of Golab Rai Sheobux, who states that he paid in all Rs. 125 8 to members of the Fire Brigade, Rs. 20 of which he paid to a "sahib" and the balance to khalasis, coachmen, constables and others whom he could not identify. This witness stated that he thought he could identify the "sahib" he referred to, who was wearing a brass helmet; and that the money was paid in two instalments of Rs. 10 in an upper room of the "gola" in the presence of Gajadhar Tewari, Juraman, Balla Bux end Ram Bharose.

Later on in his evidence this witness stated that though he paid the money in the upper room of the "gola," all the persons whom he cited as having witnessed the payment were at that time downstairs throwing water on the timber with buckets. If this is true, they obviously could not have been eye-witnesses to the payment.

On the following day all these witnesses were examined, as well as Hira Lall Hirabat, the cashier of Narain Misser's master.

Gajadhar Tewari—Stated that Narain paid Rs. 125-8 in his presence to khalasis of the Brigade, whom he could not identify. He did not see any payment made to a "sahib."

Juraman—Said that Narain paid some khalasis, but he did not see him pay any "sahib." He cannot identify the khalasis, nor can he say how much was paid.

Balla Bux—Saw Narain pay money to the Fire Brigade staff; but he cannot say if any "sahibs" were paid, and cannot identify any of the recipients.

Ram Bharose—Did not see any money paid.

Hira Lall Hirabat, the cashier—Did not see any money paid to the Brigade. He paid Narain Misser Rs. 100 for the Fire Brigade.

Finally, this witness Narain, though warned to attend the identification parade at 3-45 P.M., turned up at 5 P.M. after the parade had been dismissed, and stated that as he had been weighing gram, he could not come earlier. In

any case, his evidence is in itself improbable and is not corroborated by any of the witnesses cited by him. It is therefore doubtful if any action could possibly have been taken on it, even had he succeeded in identifying any particular individual.

(3) *Lachmi Narain Bogla*—States that at Jowala Dutt's request he went up to speak to the "sahib" of the engine which stopped opposite his "gola" (this was the Howrah engine), and asked him to turn the hose on his "gola," on which the "sahib" demanded money. Witness then borrowed Rs. 100 from Jowala Dutt on the understanding that they should each be responsible for half this sum, and paid it to the "sahib." It was all in 10-rupee notes. Witness stated that Jowala Dutt was close by when this money was paid, and that he (witness) could not identify the "sahib" to whom he paid the money.

This witness attended the identification parade, but could not pick out the man he referred to. He further stated that the man to whom he paid the money was dressed in white. None of the Fire Brigade were dressed in white at the fire.

Jowala Dutt, his witness—Corroborated Lachmi Narain as regards payment of the Rs. 100 to him, but said that he could not identify the individual who took the money. This witness also attended the parade, but could not identify any one, and said that the man to whom the money was paid was dressed in black.

(4) *Sheomukh Rai*—Said he paid Rs. 100 to a "sahib" of the Brigade who was standing about 100 feet from the fire engine on Strand Road and who demanded money from him. Witness sent his Jamadar Hiranand to fetch Rs. 300 from his office which was close by. This money was brought a few minutes later, and witness paid the "sahib" Rs. 100, and got in return a hose pipe and some khalasis. The pipe was joined to a street hydrant and used on witness's "gola." Ten minutes later the water was stopped, and the same "sahib," when appealed to, demanded more money. Witness then paid him another hundred rupees in the presence of Hiranand and one Suren Kundu. Witness also stated that this latter (Suren Kundu) paid in his presence some money to the same "sahib." Witness could not identify the "sahib" to whom he paid the money.

An entry in this witness's account book shows payment of Rs. 233-3-6 on this occasion. Witness explains that, besides the Rs. 200 referred to above, he paid his own servant Rs. 33-3-6 as "bucksheesh."

Hiranand—Corroborates Sheomukh as regards his bringing Rs. 300, which he got from Johur Mull, Sheomukh's cashier, and which Sheomukh paid in his presence to a "sahib" whom he cannot identify.

Johur Mull—Corroborated the payment of Rs. 300 to Hiranand, but did not know what was done with it. From the description given of the position of the engine referred to by Sheomukh it appears to have been the Howrah station engine.

(5) *Suren Kundu*—Stated that he paid Rs. 55, in 10-rupee notes and Rs. 5 in cash, in the presence of several others, whose names he did not know, to the same "sahib" as Sheomukh paid, which payment was made in witness's presence. This payment of Rs. 55 is supported by an entry in an account book produced by this witness, who stated that the money was brought from his office by his durwan, Islok Misser. Asked to describe the person to whom he paid the money, witness said he was wearing a "topee," not a brass helmet; that he had no brass epaulettes (worn by the Engineers), but was wearing white breeches and a black coat, and was working a hose pipe.

Witness was not certain whether he could identify the person he referred to. He was asked to attend the identification parade, but failed to do so.

His durwan, Islok Misser, who was also examined, stated that while the fire was some distance from Suren's "gola" the safe and furniture were removed to the river bank; that the Babu himself came there and ordered witness to take Rs. 50 out of the safe, which he (the Babu) took away. Witness did not see to whom the money was paid.

(6) *Kedar Nath Sikdar*—Stated that he saw a Fire Brigade "sahib" breaking open some iron safes, while seven or eight other "sahibs" were

standing round looking on. Later on he saw two of these "sahibs" in Chandra Shekhar's "gola," and they asked him for Rs. 10. He went and borrowed Rs. 5 from the proprietor of the "gola." Meanwhile one of the "sahibs" had gone, and he paid Rs. 5 to the other "sahib" whose name he heard was "Woodward."

There was a Sergeant of this name at the fire, but he has since been dismissed the force for misconduct (not connected) with this fire) and is now in England. At the parade this witness identified a Sergeant named Green as the other man who was with Woodward in the "gola." Sergeant Green did not go to this fire at all. Witness could not produce or identify the other persons connected with this "gola" who he said were present when this case of safe-breaking occurred, though all the servants of the "gola" were produced for his inspection.

(7) *Mahadeo Prosad Poddar*—Stated that he paid Rs. 20 to a European fireman whom he thought he could identify. He produced an entry in his account book showing an amount of Rs. 20 paid on this account, but could not give the names of any persons who were present when he paid the money. He was present at the parade, but failed to identify anyone.

(8) *Jogendra Nath Bose, formerly a clerk of Ram Lall Ghose, who has a timber yard in that quarter*—Stated that he paid Rs. 40 to a "sahib," whom he could not identify, in the presence of one Baijnath. He borrowed Rs. 30 of this from Baijnath and Rs. 10 from Ram Lall Ghose. This witness was examined at the previous hearing (*vide* page 22 of the printed evidence), and the story he then told differs essentially from what he now states.

Baijnath Poddar, examined on the 31st March—Stated that on Jogen's behalf he borrowed Rs. 50 from Radha Kissen Bagla (who had already made this statement on the previous day), of which he gave Rs. 30 to Jogen, who gave it to a European fireman, whom witness cannot identify and to whom witness himself paid Rs. 10 in the presence of Ram Lall Ghose.

Ram Lall Ghose—Stated that he knew nothing about payment of money to the Brigade, but that he gave Rs. 10 to Jogen, who said he wanted it for the Brigade.

(9) *Kedar Nath Dutt, of Kristodhan Sircar's wood "gola," examined on 31st March 1910*—Said he paid Rs. 50 to a "sahib," and later on Rs. 20 to a "sahib." He cannot say if both payments were made to the same man, as all "sahibs" looked alike to him. The "sahib" to whom he paid the Rs. 50 had a brass helmet and brass epaulettes. The Rs. 20 witness borrowed from Radha Kissen Bagla (who had already said so in his statement recorded on the previous day) and Rs. 20 from Ananta N. Dutt. No one was present when witness paid this money, and at the parade this witness could not identify any one.

(10) *Surendra Nath Dey*—Said he offered a cheque for Rs. 500 (which was refused) to a Fire Brigade "sahib" who had demanded money from him. The "sahib," who had on brass epaulettes, was with the Nimtolla engine. Witness could not say who was present when the money was demanded. At the parade he failed to identify the individual he referred to. There is no other evidence to corroborate his statement.

Conclusion.—Summing up the results of the enquiry, the Committee are unanimously of opinion that Superintendent Haultain knowingly accepted Rs. 400 from Upendra Nath Dutt and that he retained the money in his possession till the 1st February, when the talk of an enquiry was in the air. They think, however, that the money was paid to him voluntarily and that he did not demand it. As regards Engineer Chase, the majority of the Committee (Mr. Tegart dissenting) find that he both demanded and accepted illegal gratifications. There is a strong case of suspicion against Engineer Jarrett, but the evidence falls short of positive proof. The other cases fail altogether.

The 12th April 1910.

Note of Dissent by Mr. Tegart regarding the finding against Engineer Chase.

THERE are three distinct charges against Engineer Chase—

(1) That on arrival at the scene of the fire he demanded Rs. 1,000 and finally accepted Rs. 400 from Chandra Shekhar Naik, before he started the engine.

This incident is deposed to by (1) Chandra Shekhar, witness No. 36; (2) Jotindra Biswas, witness No. 32; and (3) Makhan Naik, witness No. 41.

(2) That shortly after the above incident he demanded money and accepted Rs. 100 from Radha Kissen Bagla.

To this Radha Kissen (No. 10) is the only witness, excepting Muralidhar, witness No. 42, who refers to the money being borrowed from him.

(3) That at about 9-30 P.M. on the 21st January, before removing his engine from the scene of the fire, he demanded money and accepted Rs. 100 for leaving a stand-pipe and hose behind.

Witness: (1) Chandra Shekhar, (2) Jotindra Biswas, and (3) Haridas Mandal, witness No. 38, depose to this.

As regards the evidence to prove charge No. 1—

In the first place it must be considered that though intending witnesses were warned by proclamation at the scene of the fire, and though the Committee at the commencement of their enquiry requested Babu Radha Charan Pal and Dr. Haridhan Dutt to inform the witnesses, that they must not come before the Committee singly, but with any documentary and oral evidence available to corroborate their charges, in order that each case might, as far as possible, be examined at one sitting, in this case, as in many others, witnesses persisted in coming up singly, the evidence in support of their statements being produced later, after the proceedings at the former sittings had become public property.

In support of this charge there are only three witnesses: (1) Jotindra Biswas, who was examined on 31st January 1910; (2) Chandra Shekhar, who was examined on 1st April 1910; and (3) Makhan Naik, who was examined on 6th April 1910.

Asked why he did not bring his cashier, Makhan Lal, with him as directed, Chandra Shekhar stated he did not know his evidence would be required. That Makhan Lal had either read or discussed the evidence previously given by his master is evident from the fact that he was able to give from memory the number of the 100-rupee note alleged to have been paid to a fireman on 21st January 1910, which had been referred to by Chandra Shekhar.

In my opinion very little weight can be attached to corroborative evidence adduced in this manner.

As regards the identification in this case—

(1) *Chandra Shekhar*, in pointing to Engineer Chase, said he thought this was the man.

(2) *Jotin Biswas* said first he thought he was the man, and almost immediately afterwards said he was sure.

(3) *Makhan Lal Naik* could not identify anybody.

All these witnesses belong to the same "gola." There is no external evidence in support of the charge, although, if the allegations made are true, the surrounding "gola" owners suffered total loss of all their property partly owing to the fact that the services of this engine were mainly directed towards saving Chandra Shekhar's "gola."

As aggrieved parties one would have expected some evidence from their side rather than from the actual complainant, whose story is that for Rs. 800 he saved five-sixths of his valuable property.

There is no suggestion that in placing this engine opposite Chandra Shekhar's "gola" Engineer Chase or any other member of the Brigade was influenced by improper motives: it was driven straight there from head-quarters by a native coachman. In my opinion this engine was correctly placed in the first instance opposite *Chandra Shekhar's "gola."*

Evidence recorded at the former enquiry showed that the wind was then southerly, though it shifted later on. It was near this spot that the fire

originated; and when this engine arrived, the conflagration had not spread across Darmahatta Street, and the efforts of the Brigade were mainly directed towards preventing it spreading in that direction.

Chandra Shekhar's "gola" is close to the junction of Nimtola Street and Darmahatta Street, and the fact that it was only partially destroyed is in my opinion more naturally explained by the important position it occupied at this stage of the fire, in order to cope with which leads of hose would, as described, have to be taken through and round the "gola."

As regards the allegation that money was extorted before the engine was started, I am disinclined to believe that immediately on arrival at the scene of the fire the Engineer in charge of the engine would refuse to start his engine until paid to do so. Further in this case the Chief Engineer was present and in immediate charge of the operations of this engine, which was at that time the only one present; and it was for him, and not for his subordinate, to say when and where the engine should work.

As regards the second charge—

The payment of this money is absolutely without corroboration, and the details as regards the borrowing of the money are also discrepant.

Radha Kissen states he borrowed this money (Rs. 100) from Bhikraj Sagar Mull, to whose "gola" he took Engineer Chase in order to telephone for the second engine; that the money was borrowed in Sagar Mull's "gola" after the telephone was sent; and that Sagar Mull was to pay half of this sum himself.

The Rs. 50 due from Radha Kissen was repaid to Sagar Mull, according to Radha's statement, about seven days later, and an entry to this effect is shown in witness's "khatta" book. Witness further stated that the money was paid to Engineer Chase quietly on the way back to the engine, and that Sagar Mull was not there then.

Sagar Mull is away in Moulmein His brother Muralidhar, who works in the same "gola," stated that on that night Bhikraj and Radha Kissen came together to his "gola" with three or four others, and both borrowed Rs. 100 from him which they both took away. On the following day he asked them what became of this money. They returned Rs. 40 to him, and stated that the balance, Rs. 60, had been spent on account of the fire. In support of this witness produces an entry in his "khatta" showing a payment of Rs. 60 to the "damkhalwala" ("damkhal" means a fire engine). Witness could not remember if any "sahib" came with Radha Kissen to the office, and said that the telephone for the Fire Brigade was sent before he arrived at the office from his house.

As regards the third charge—

Witness Haridas Mandal, cited by Chandra Shekhar as having been present when payment was made, stated he would be able to recognize the "sahib" to whom payment was made in witness's presence. At the identification parade this witness did not identify any one.

Jotin Biswas, the other witness alleged to have been present, stated that he was inside the "gola" with Makhan, and that the money was paid on the road in his sight 14 cubits away from the door of the "gola": it was then 9-30 P.M.

Engineer Chase has stated that in leaving this stand-pipe and hose behind when the engine was withdrawn, he was not acting on his own initiative, but under orders received from Superintendent Haultain.

This officer has 18 years' blameless service to his credit, 14 of which have been spent in the Fire Brigade. During this period he has worked under very trying conditions at all classes of fires throughout the town and suburbs of Calcutta and Howrah, and his work has always been well spoken of. I think in view of his previous exemplary character and the inconclusive nature of the evidence in support of each of these charges that he is entitled to the benefit of the doubt.

RESOLUTION ON THE REPORT ON THE ADMINISTRATION OF THE JAIL DEPARTMENT FOR THE YEAR 1909.

JUDICIAL DEPARTMENT.

JAILS.

Dated Darjeeling, the 1st June 1910.

RESOLUTION No. 848J.—D.

READ—

The Report on the Administration of the Jail Department for the year 1909.

Read also—

The Reports for the years 1907 and 1908 and the Resolutions of Government recorded thereon.

LIEUTENANT-COLONEL W. J. BUCHANAN, I.M.S., was in charge of the Department from 1st January to 19th March 1909, and Major J. Mulvany, I.M.S., who has submitted the report, officiated for him during the remainder of the year.

2. The outstanding feature of the previous year's report was the great increase in the jail population. During the year 1909 the daily average population showed a still further increase, being 17,108 compared with 16,739 in 1908 and 15,275 in 1907. The main increase took place in the first seven months of the year; the maximum being reached in July. There are, however, signs of some relief. The total number of prisoners admitted during the year fell from 101,485 to 89,081. The daily average of prisoners under trial fell from 2,249 in 1908 to 2,005 in 1909, and the total number of under-trial prisoners admitted fell from 44,804 to 37,484.

3. The necessity for increasing the accommodation is the most serious problem which the Jail Administration of the Province has to face. The total number of prisoners for whom accommodation is provided in all jails in the Province (excluding hospital accommodation) is 14,815 convicts and 1,895 under trial. The daily average population during the year was 15,066 convicts and 2,005 under-trial prisoners. To realize the seriousness of the situation, it is necessary to take into consideration the following four elementary principles:—

(1) Convicts cannot be placed in under-trial wards;

(2) The surplus accommodation in female wards cannot be used for the accommodation of male prisoners;

(3) Adult male prisoners cannot be accommodated in wards reserved for juveniles;

(4) Hospital accommodation should not be used for prisoners who are not sick.

The accommodation provided for females, juveniles, and sick prisoners is, as a rule, adequate in all jails, but the accommodation set apart for these classes and for under-trial prisoners and the accommodation in subsidiary jails, where prisoners are detained only for very short terms, have to be deducted from the total before the true problem is realised. The male convict accommodation in Central and District Jails provides for 13,264 prisoners, whereas the daily average number of male convicts amounted in 1909 to 14,458, and the maximum, reached in July, was 14,993. Out of the 37 Central and District Jails in the Province, 23 were overcrowded throughout the year. The situation was met, as in the previous year, by accommodating prisoners in hospitals, workshops and temporary huts; but such expedients, in His Honour's opinion, can no longer be deemed permissible. A measure of relief has been obtained through the opening of the new Central Jail at Alipore, which has accommodation for 1,390 prisoners. but this too is merely a temporary expedient, as the old Presidency Jail, which has accommodation for 1,291 prisoners, will have to be evacuated within three years at the outside. In the Lieutenant Governor's opinion it is essential to

increase the accommodation available in the Central Jails, and this can only be done effectually and permanently by building a new Central Jail.

So long as the jails are overcrowded, as at present, it is impossible to take satisfactory measures for the classification of male convicts, and little can be done beyond temporary measures for the segregation of prisoners on admission. His Honour proposes, however, that the new Central Jail should be built on the most modern lines, as a special jail for the accommodation of habitual criminals, where a more rigorous system of jail discipline will be enforced. To this jail will be removed the worst of the criminal population of the Province, and through the relief thus obtained the Central Jails will be enabled to accommodate the long-term convicts, at present incarcerated in District Jails, which are not intended for prisoners undergoing sentences in excess of six months.

4. The Lieutenant-Governor notes with satisfaction that in spite of the overcrowding, the mortality decreased from 31·1 per mille in 1908 to 24·5 per mille in 1909, a figure which compares favourably with the average of preceding years. If the mortality of the Hazaribagh Central Jail, which reached the high figure of 71·5, be excluded, the rate for the Province was only 21·3. Twenty-four jails showed a decrease of mortality in 1909. The high rate in Hazaribagh has received the anxious consideration of Government, and the report of Captain Wells, I.M.S., who was deputed to make a special investigation into the causes of this high rate, is awaited. His Honour is glad to note that there were throughout the jails of the Province only four deaths from cholera. There was a decrease in the number of deaths from tuberculosis. The desirability of providing special accommodation for prisoners suffering from this disease has long been recognised, and when the much-needed relief is obtained through the building of a new Central Jail, it is hoped that it will be possible to set apart special wards for such prisoners.

5. Towards the end of the year the Department took over the new Central Jail at Alipore, but it was not opened for the reception of prisoners till January 1st, 1910. The new sub jails at Madhubani and Sitamarhi, and the extension of the Diamond Harbour Jail, will be completed early in 1910. Sanction has been obtained, and funds have been provided, for the construction of new sub-jails at Banki in Cuttack and Banka in Bhagalpur, and the enlargement of the sub-jails at Magura and Samastipur. Many other projects for the improvement of District Jails and reconstruction of sub-jails await a more favourable time for the provision of funds.

6. Although there was an increase in the number of prisoners employed on jail manufactures there was a decline in the cash earnings of the Department, and the total earnings amounted to Rs. 4,90,292 compared with Rs. 4,56,127 in 1908, Rs. 5,37,107 in 1907 and Rs. 6,32,679 in 1906. The Inspector General attributes the decrease in cash earnings to the absence of orders from other Departments of Government due to financial stringency and the consequent accumulation of unsold stocks in the jail godowns, and to an increase in the amount of work done for the Jail Departments of this and other Provinces, the value of which is not shown under the head "Cash earnings." His Honour has directed a special enquiry to be held into this subject.

7. The number of offences committed by convicts was 32,495 compared with 28,688 in the previous year. The increase is due to the extension of jail population. The number of B class prisoners (habitual offenders) and of A class was about equal; but 65 per cent. of the offences were committed by the B class prisoners. During the year twelve convicts and four prisoners under trial escaped, of whom seven in all were recaptured.

8. There was an increase in the number of punishments inflicted on warders from 1,583 to 1,955. The present system, under which the duty of guarding prisoners is largely entrusted to convicts employed as warders, overseers and watchmen, has been condemned on more than one occasion. The system is economical, but efficiency and discipline must necessarily suffer. There are at present in the jails of the Province 1,531 paid warders and 2,840 convict officers, a figure which represents more than one-third of the A class prisoners. Of the convict officers, 199 are employed as warders, 759 as overseers and 1,882 as watchmen. The improvement of the warder system can be effected only

gradually as funds permit; meanwhile the new juvenile jail at Alipore has been officered entirely by paid guards, and the same system will be followed in the new Central Jail for habitual prisoners.

An important reform sanctioned during the year was the formation of two circle reserves of warders, the one at Alipore, the other at Buxar, in which recruits are being trained to fill vacancies occurring in the Central and District Jails within the circle.

9. The average period of detention of prisoners under trial in sessions cases was 35 days compared with 34 in the previous year. Prisoners under trial in other cases were detained for an average period of 15 days compared with 17½ in 1908. The longest average period was in Barasat—31 days, and the shortest in Dumka—7 days.

10. The Discharged Prisoners' Aid Society of Calcutta continued to do good work. They assisted 68 discharged prisoners in addition to 29 employed in their book-binding workshop. The annual grant of Rs. 3,000 from the Claude Martin Fund was received from the Commissioner of Police, and 2,020 released convicts received aid from this source usually sufficient to enable them to reach their homes.

11. The names of the officers commended by the Inspector-General have been noted. The Lieutenant-Governor desires to thank Lieutenant-Colonel W. J. Buchanan, I.M.S., and Major J. Mulvany, I.M.S., for their able administration of the Department during the past year. He desires also to acknowledge the work done by Major Mulvany in revising the Jail Code.

Ordered also that a copy of this Resolution and a copy of the Report be submitted to the Government of India in the Home Department.

Ordered also that the Resolution be published in the *Calcutta Gazette.*

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

o, overcast; d, drizzling rain; t, thunder; ≤, lightning; p, passing showers; ⚷, strong wind; ℟, thunderstorm.

XX.—The Vice-President and Secretary shall submit to the Commission at each meeting the Inspector's reports on the boilers inspected in the form of a diary, which shall be recorded in the office.

* The report is for the week ending the 4th June 1910.

General Summary.—The rainfall was general all over the Province excepting Shahabad and Darbhanga. The fall was heavy in Burdwan, Bankura, Midnapore, Nadia, Jessore and Cooch Behar, moderate in Champaran, the Sonthal Parganas, Ranchi, Manbhum and Singhbhum and light elsewhere. The heavy rain has temporarily retarded ploughing in Midnapore and Jessore and has also done some damage to the standing crops in the latter district. More rain is wanted in parts of Darbhanga and the Sonthal Parganas for cultivation. The standing crops are doing well. The price of common rice has risen in Murshidabad, Jessore, Khulna, Patna, Monghyr, Bhagalpur, Cuttack, Hazaribagh and Palamau and has fallen in Midnapore, Champaran, Muzaffarpur, Darbhanga, Ranchi, Manbhum and Singhbhum. Cattle-disease is reported from Midnapore, Jessore, Gaya, Champaran, Muzaffarpur, Darbhanga, Bhagalpur, Purnea, Cuttack, Puri, Sambalpur, Hazaribagh and Palamau. The fodder and water-supply is sufficient throughout the Province excepting Balasore and Angul.

SUMMARY OF RAINFALL OBSERVATIONS TAKEN IN BENGAL DURING THE MONTH OF MAY 1910.

During the month of May, rainfall was general over the Province. The fall was below the average everywhere, except in the districts of Murshidabad, Jessore, Khulna, Muzaffarpur, Purnea, Hazaribagh and Ranchi, where it was above the average. The excess was well marked in Khulna, where the departure from the normal was + 1·34 inches. On an average South-West Bengal received 4·73, Bihar 1·64, Orissa 2·60 and Chota Nagpur 1·45 inches of rain. The departure from the normal was —0·55 inch in South-West Bengal, —0 77 inch in Bihar, —1·55 inches in Orissa and —0·83 inch in Chota Nagpur, the defect being greatest in Orissa.

The following table gives full data for comparison of the actual and normal rainfall of the month of May for all the districts of the Province. The figures are derived from the average and actual rainfall of the rain-reporting stations in each district.

The first column gives the normal or average district rainfall as determined from the observations of past years. The second column gives the actual district rainfall as determined from the actual rainfall of the month at the reporting stations in each district. The third column expresses the ratio of the actual district rainfall of the past month to the normal rainfall as a percentage. The fourth column gives the same information as the third in a

slightly different form, stating as a percentage how much the district rainfall of the month varied in excess or defect from the normal.

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

o, overcast; t, thunder; d, drizzling rain; p, passing temporary showers; g, gloomy; ⚡, strong wind; K, thunderstorm.

The Plaint and Verification.

12. Every suit shall be instituted by the presentation of a plaint in the manner hereinafter provided.

13. The plaint shall be distinctly written in the English language on a form to be provided by the Court.

14. The plaint shall contain the following particulars:—

(*a*) The name, description and place of residence or business of the plaintiff;

(*b*) The name, description and place of residence or business of the defendant so far as this can be ascertained;

(*c*) Where the plaintiff or the defendant is a minor or a person of unsound mind, a statement to that effect;

(*d*) A concise statement of the cause of action and when and where it arose; or in plaints in suits to which Rule 101 applies, the cause or causes of action and the date or dates on or within which the same arose;

(*e*) The relief claimed;

(*f*) Where the plaintiff has allowed a set-off or relinquished a portion of his claim, the amount so allowed or relinquished;

(*g*) Where the plaintiff sues in a representative character: the plaint shall show not only that he has an actual existing interest in the subject matter, but that he has taken the steps (if any) necessary to enable him to institute a suit regarding it;

(*h*) Where the suit is instituted after the expiration of the period prescribed by the law of limitation, the plaint shall show the ground upon which exemption from such law is claimed.

15. The plaint shall be signed by the plaintiff or, in the case of his absence from Calcutta, by his recognised agent, as defined in Order III, Rule 2, in the First Schedule.

16. The plaint shall be verified by the plaintiff or some other person acquainted with the facts of the case.

17. The verification of a plaint, or other document required by these rules, or by such portion of the Code as may be applied to this Court, to be verified, shall be in the following form:—

"I,

do declare that what is stated herein is true to my knowledge, except as to matters and facts stated on information, and as to these I believe the same to be true."

and shall be signed by the person making it.

Presentation of Plaint.

18. A plaint shall be presented to the Clerk of the Court, or to such officer of the Court as the Chief Judge may, from time to time, appoint in that behalf. If the plaint be reasonably legible and be properly stamped, signed and verified, it shall be received by such Clerk of the Court or other officer, who shall give to the person presenting the same a receipt therefor and shall further give a receipt in such plaint—receipt for any documents which may be filed in Court along with the plaint. In the case of suits to which Rule 101 applies, the receipt shall also state the date of hearing and before which Bench the case will be heard.

19. The plaintiff shall present along with the plaint as many copies of the form of summons provided by the Court as there are defendants named in his plaint after entering in each of such copies the name of his pleader, if any, the names, descriptions and places of residence or business of the parties, the cause of action, the relief claimed and the particulars, if any, required by clauses (*e*) and (*f*) of Rule 14. Such copies shall, after due examination, be completed and issued to the defendants as hereinafter directed.

20. The plaint may at the discretion of the Court be rejected at any time before the hearing of the suit, if it does not disclose a cause of action or if from any statement in the plaint the suit appears to be barred by any positive rule of law.

21. (*a*) The plaint or the memorandum of appearance hereinafter mentioned may be amended at any time in such manner and upon such terms as to the payment of costs occasioned by the amendment as the Court thinks fit, if it—

(1) is not signed and verified as required by these rules;

(2) does not state correctly and without prolixity the several particulars required by these rules to be specified therein;

(3) contains any particulars other than those so required;

(4) is wrongly framed by reason of non-joinder or misjoinder of parties, or joins causes of action which ought not to be joined in the same suit; or

(5) requires amendment for the purpose of determining the real questions in controversy between the parties.

(*b*) If a party who has obtained an order for leave to amend does not amend accordingly within the time limited for that purpose by the order, or, if no time is thereby limited within seven days from the date of the order, he shall not be permitted to amend after the expiration of such limited time as aforesaid or of such seven days as the case may be, unless the time is extended by the Court.

22. When a plaint or memorandum of appearance is amended, the amendment shall be attested by the signature of a Judge or the Registrar.

23. The plaint shall be rejected in the following cases:—

(*a*) if the relief sought is undervalued and the plaintiff, on being required by the Court to correct the valuation within a time to be fixed by the Court, fails to do so;

(*b*) if the relief sought is properly valued, but the plaint is insufficiently stamped, and the plaintiff, on being required by the Court to supply the requisite stamp within a time to be fixed by the Court, fails to do so.

24. The rejection of a plaint on any of the grounds hereinbefore mentioned shall not of its own force preclude the plaintiff from filing a fresh plaint in respect of the same cause of action.

Summons.

25. Where a suit has been duly instituted, the Clerk of the Court, or such other officer as the Chief Judge may, from time to time, appoint in that behalf, shall, on receipt of the proper fees, issue a summons directed to each defendant.

26. The summons to the defendant shall be issued and dated as of the day on which the plaint was filed. It shall require the defendant or defendants to enter an appearance before the Registrar within a time to be therein mentioned. It shall also state—

(*a*) In suits for liquidated demands or for damages, that a decree may be recorded by default, without further notice, against every defendant served with the summons who shall not enter an appearance.

(*b*) In all cases, except as provided in (*a*), that the suit will be set down for hearing against every defendant who shall not enter an appearance.

(*c*) That each defendant when he enters an appearance will be furnished with a certificate of appearance, on which shall be mentioned the Bench before which the case will be heard as against him, and the day on which the case will appear in the list of causes for hearing in its turn before such Bench.

27. The time to be allowed a defendant to enter appearance after the service of summons upon him, shall be regulated in the following manner:—but a shorter or longer period may, if required by circumstances, be allowed at the discretion of the Registrar:—

(*a*) If a defendant resides or carries on business in Calcutta or within the extended limits included in the definition of "Calcutta" in Schedule I to Act III of 1899 of the Bengal Council or within the limits of the Howrah Municipality, the summons shall be served upon him at least 7 days before the last day for entering appearance.

(*b*) If a defendant resides or carries on business outside the limits mentioned above, but within 100 miles of Calcutta or within 10 miles from any Railway Station in Bengal and Bihar, the summons shall be served upon him at least 10 days before the last day for entering appearance.

(*c*) If a defendant resides or carries on business beyond 100 miles from Calcutta within the districts of Backergunge, Birbhum, Bhagalpur, Dacca, Burdwan, Bankura, Faridpur, Gaya, Hazaribagh, Jessore, Malda, Midnapur, Monghyr, Murshidabad, Mymensingh, Nadia, Patna, Pabna, Purnea, Rajshahi, Saran, Shahabad, Tirhut or within 10 miles from any Railway Station in the Central Provinces, or United Provinces of Agra and Oudh, or of the Delhi Station of the East Indian Railway, the summons shall be served upon him at least 14 days before the last day for entering appearance.

(*d*) If a defendant resides or carries on business beyond 100 miles from Calcutta in any district subject to the Appellate Jurisdiction of the High Court other than those before mentioned, or at any place more than 10 miles distant from any Railway Station in the Central Provinces, or United Provinces of Agra and Oudh, or within the limits of the Presidency Towns of Madras or Bombay, the summons shall be served upon him at least 14 days before the last day for entering appearance.

(*e*) If a defendant resides elsewhere than is before mentioned within the dominions of His Majesty in India, the summons shall be served upon him at least 35 days before the last day for entering appearance.

28. In fixing the last day for entering appearance, sufficient time shall be allowed for the due service of the summons; which shall ordinarily be the same number of days from the date of the summons as are allowed to the defendant under the preceding rule for entering appearance.

If the suit is instituted against more defendants than one, the last day for entering appearance shall be the same for all the defendants, and shall ordinarily be so many days after the date of the summons as are equal to twice the greatest number of days allowed under the preceding rule to any of the defendants in the suit for entering appearance.

29. The summons to a defendant shall be served by delivering or tendering it to him personally if possible, or to his recognised agent as defined in Order III, Rule 2, in the First Schedule or to an adult male member of the family actually residing with him at the time, or to his landlord if they both reside in the same house, or to a clerk or assistant employed in a business carried on by him or in which he is a partner.

30. If after the use by the serving officer of all due and reasonable deligence the defendant or other person to whom, under the last preceding rule, a summons may be delivered or tendered cannot be found, the serving officer shall affix the summons on the outer door of the house in which the defendant is then actually residing or carrying on business or personally working for gain.

31. A summons may be served on any person who shall be living or serving on board any ship, vessel or boat; and if the same cannot be served personally, it may be served by delivering it to the senior officer on board, or to the person who for the time being may have charge of such ship, vessel or boat.

32. When a summons or process is to be served on a pilot or preventive officer employed on actual service, it may be sent to the head of the office in which such pilot or preventive officer is employed for the purpose of being served upon him.

33. A summons to be served under Order V, Rule 25, in the First Schedule shall be sent by registered post.

34. When a summons cannot be served in accordance with the directions contained in the foregoing rules, or in Order XXX, Rule 3, in the First Schedule, the Registrar may extend the time for service, or order service, or substituted service, in such manner as to him may seem fit.

35. All acts which may be done by the Court under Section 28 of the Code as extended or under Order V, Rules 20, 21 and 23, in the First Schedule may be also done by the Registrar, and such service of summons as may be ordered by him shall be as effectual as if the same had been ordered by the Court.

36. When a summons, process, or warrant is to be served or executed, the person requiring such service, or some one on his behalf shall accompany the bailiff or serving officer to point out the person on whom and the place where such summons, process, or warrant is to be served or executed unless in the opinion of the Court or the Registrar an identifier is not required.

37. Service of the summons on every defendant who has failed to enter an appearance shall be proved by affidavit or otherwise to

the satisfaction of the Registrar. This shall be done as follows: A special daily list shall be prepared for the Registrar under the heading "Summonses." The next day after the last day for entering an appearance, the case shall be entered in the special list for enquiry as to the service of the summons. At such enquiry, which may, if necessary, be adjourned from time to time, affidavits or further affidavits may be received, or evidence taken *viva voce*. The Registrar, on being satisfied as to the due service of the summons, shall cause the case to be set down for hearing as provided in Rule 55, or be dealt with as provided in Rules 59 and 60.

Such enquiry may be held at the instance of the plaintiff, at any time during the first three days after the last day for entering appearance, but at 11 A.M. on the 4th Court day after the last day for entering appearance, all cases remaining in the special list of the day next after the last day for entering appearance shall be taken up by the Registrar in their turn; and if the summons against any defendant is not found to be duly served and no application is made for a further summons, the suit shall be dismissed as against such defendant.

38. If on the enquiry, under Rule 37, it shall not be proved that the summons has been duly served, a further summons shall be issued by the Registrar, but the costs of obtaining such summons shall not be allowed as costs in the cause, unless so ordered by the Registrar, on being satisfied that a *bonâ fide* endeavour has been made on the part of the plaintiff to serve the previous writ.

39. If on the enquiry, under Rule 37, it be found that the summons has not been served upon the defendant in consequence of the failure of the plaintiff to pay the Court-fee or the postal charges (if any) leviable for such service, the Registrar may order that the suit be dismissed: Provided that no such order shall be passed, if on the day fixed for the enquiry, the defendant attends in person or by pleader or recognised agent and enters an appearance.

Appearance.

40. An infant or person adjudged to be of unsound mind can only enter an appearance by his guardian for the suit. This rule shall also apply to a person of unsound mind not so adjudged if incapable of protecting his interests when suing or being sued.

41. A defendant in a case in which a decree by default may be recorded against him may enter an appearance at any time before such a decree has been recorded against him.

42. In cases not otherwise provided for, a defendant may, with the permission of the Court, enter an appearance after the time allowed to him for that purpose. If he allows the case to proceed to a hearing without entering an appearance, he may at the hearing cross-examine the plaintiff's witnesses and address the Court; but unless the Court otherwise orders, evidence shall not be received on his behalf: Provided that an infant or a person under disability shall not be precluded from defending a suit in the ordinary course.

43. The mode of entering an appearance shall be by a memorandum written on a form to be provided by the Court, and dated

on the day on which it is delivered. Such memorandum shall be signed as if it were a plaint, and shall contain the name of the defendant's pleader with the address of his place of business; or shall state that the defendant defends in person, in which case his own address at which processes may be served, shall be given. It shall also contain the pleas upon which the defendant intends to rely at the hearing and shall state concisely which of the facts alleged in the summons are admitted and which are denied by him. Except where an order for its amendment has been made and complied with or the Court otherwise directs, no further plea shall thereafter be allowed to be raised by the defendant and all material facts alleged in the summons and not denied by the defendant in the memorandum of appearance shall, at the hearing, be taken to be admitted by him.

44. The memorandum of appearance shall be in the following form, with such variations as circumstances may require:—

Witnesses.

49. Every summons to a person to give evidence or produce a document shall be served as nearly as may be in the manner hereinbefore prescribed for the service of summons on a defendant.

50. Subject to the provisions of Order XVI, Rule 2, Sub-rule (2) in the First Schedule, the scale in Schedule B annexed to these rules shall be the scale of expenses ordinarily allowed to witnesses under the said Rule 2: Provided that, when a witness is an agent or servant of the party requiring his attendance, no such expenses shall be allowed. In cases not provided for in the scale, the Court will exercise its discretion in allowing the expenses of the witness.

51. A witness shall, before he is sworn or solemnly affirmed, be entitled to be paid his expenses, if they have not been previously paid. If a witness attend in one matter only, he will be entitled to the full allowance. If he attend in more than one matter on the same day, he will be entitled to such proportionate part in each matter as the Court may direct.

52. When a tender of expenses is made at the time of service, a sum not less than the minimum rate allowed by the scale for the particular class of witness shall be tendered to him. In the event of any question arising as to the amount of the tender, the Court shall decide the same at the hearing of the matter in respect of which the witness is required to attend.

53. A witness residing out of Calcutta will be entitled to all travelling expenses reasonably and actually incurred by him, or likely to be incurred by him, and will also, if detained in Calcutta, be allowed such a sum for subsistence-money and carriage hire as the Court, having regard to the scale of expenses, may consider reasonable.

54. The expenses of a commission to examine witnesses shall, in the first instance, be defrayed by the party taking out the commission.

Suits to be set down for hearing.

55. Except as provided in Rule 59 and unless otherwise ordered, every cause in which no appearance has been entered shall, after proof of service of summons before the Registrar, forthwith be sent up to a Judge for hearing, or, if the plaintiff so requires, be set down for hearing before a Judge at such time as the Registrar may appoint; and every cause in which appearance has been entered and there is only one defendant, shall be set down for hearing before a Judge on the 7th Court day after the last day for entering appearance; and every cause in which appearance has been entered and there are more defendants than one shall, after proof of the service

of summons on the defendants (if any) who fail to enter appearance, be set down for hearing before a Judge on the 8th Court day after the last day for entering appearance: Provided always that, if required by circumstances the Registrar may, at his discretion, set any cause down for hearing on any other day.

List of defended causes.

56. Unless otherwise ordered, each case on the list of a Judge shall be taken in its turn, and shall, whether the pleaders or other legal practitioners be present or not, be heard *de die in diem* until disposed of.

57. A case that has come before a Judge can only be postponed by such Judge, or the Bench representing such Judge, on sufficient cause being shown. Except as aforesaid, a case, not in the list for the day, may, on a requisition signed by all the parties or their agents or pleaders, be postponed by the Registrar.

58. The Registrar may, in any case not in the list for the day, enter a compromise, or make a consent decree, or allow a suit to be withdrawn wholly or in part, and may grant leave to bring a fresh suit in respect of the same subject matter or any part thereof: Provided that such leave may not be granted by the Registrar in a case in which any defendant has entered appearance otherwise than with the consent of all the defendants who have entered appearance therein.

Suits for damages or for liquidated demands.

59. *Decree by default.*—In a suit for damages or for a liquidated demand, if the allegations contained in the plaint are sufficient, the Registrar may, after the time allowed for entering an appearance, subject to Rule 62, record a decree by default against the defendant or where there are several defendants, against every defendant served with the writ or summons who has failed to enter an appearance, and the plaintiff may obtain execution against every such defendant without prejudice to his right to proceed with the action against every other defendant: Provided always that no such decree by default shall be recorded against any defendant upon a plaint wherein any documents are mentioned, unless such documents have been filed in Court with the plaint or are produced before the Registrar at the time of his recording a decree by default.

60. If under the preceding rule the Registrar is unable to record a decree by default owing to the allegations in the plaint being insufficient or because a document mentioned in the plaint is not before him, or for any other sufficient cause he shall set down the case before a Judge for hearing and shall give notice of his so doing to the plaintiff or his pleader, if any, or by post to the address of the plaintiff.

61. Rule 59 shall not apply to an infant or to a person of unsound mind whether so adjudged or not.

62. After a decree has been recorded by default, the Court may, under special circumstances, set aside the decree, as against any defendant who applies for an order to set it aside and, if necessary, may stay or set aside execution, and may give leave to enter an

appearance and defend the suit if it seems reasonable to the Court so to do, and on such terms as the Court thinks fit.

Where the decree sought to be set aside under this rule or Rule 69 is of such a nature that it cannot be set aside against the applicant only, it may be set aside as against all or any of the other defendants also.

Other Suits.

63. Where neither party appears, when a case is called on for hearing, the suit shall be dismissed, unless the Judge otherwise directs.

64. When a suit is dismissed under the last preceding rule or under Rule 39 or 107 the plaintiff may (subject to the law of limitation) bring a fresh suit; or if, within the period of thirty days from the date of the order dismissing the suit, he satisfies the Court that there was sufficient excuse for his not paying the Court-fee or the postal charges (if any) required within the time allowed for the service of the summons, or for his non-appearance as the case may be, the Court shall pass an order to set aside the dismissal and restore the suit to the list of defended causes for hearing.

65. Except as provided in Rule 59, where the plaintiff appears and the defendant does not appear when a suit is called on for hearing, the Court may proceed *ex parte*.

66. Where the defendant appears and the plaintiff does not appear when the suit is called on for hearing, the Court shall dismiss the suit, unless the defendant admits the claim, or part thereof, in which case the Court shall pass a decree against the defendant upon such admission, and where part of the claim has been admitted, shall dismiss the suit so far as it relates to the remainder.

67. When a suit is wholly or partially dismissed, under the last preceding rules the plaintiff shall be precluded from bringing a fresh suit in respect of the same cause of action. But he may apply for an order to set the dismissal aside; and, if it be proved that he was prevented by any sufficient cause from appearing when the suit was called on for hearing, the Court shall set aside the dismissal, upon such terms as to costs or otherwise as it thinks fit, and shall appoint a day for proceeding with the suit.

No such order shall be made unless the plaintiff has served the defendant with notice in writing of his application.

68. Except as provided in Rule 59, when a suit, in which there are more defendants than one, is called on for hearing, and one or more of the defendants appear and the others do not appear, the suit shall proceed, and the Court shall, at the time of passing judgment, make such order as it thinks fit with respect to the defendants who do not appear.

69. In any case (not being a case to which Rule 62 is applicable) in which a decree is passed *ex parte* against a defendant, he may apply to the Court by which the decree was made for an order to set it aside; and if he satisfies the Court that the summons was not duly served, or that he was prevented by any sufficient cause from appearing when the suit was called on for hearing, the Court shall pass an order to set aside the decree as against him upon such terms as to

costs, payment into Court or otherwise as it thinks fit, and shall appoint a day for proceeding with the suit.

70. Where the parties or any of them fail to appear, on any day to which the hearing of a suit is adjourned, the Court may proceed to dispose of the suit in one of the modes hereinbefore directed, or otherwise, as it thinks fit.

Compromise and Decree.

71. Every suit or proceeding in the list of a Judge for the day settled by agreement of the parties shall be reported in open Court to the Clerk of the Bench before which the suit or proceeding is pending, or to the Bench.

72. When the Court directs that any decree shall be paid by instalments, such instalments shall, in the absence of any direction to the contrary, be paid into Court monthly, and, in default of payment of any one instalment, the whole decree or the balance thereof shall become due.

73. A decree against an executor, or administrator, or a legal representative, shall be that the decree be levied out of the property of the deceased in the hands of such executor, administrator, or legal representative; provided that the plaintiff may apply to the Court that the decree may be executed against the defendant in person and not in his representative capacity, and the Court may, if it is satisfied that the defendant has misapplied the property of the deceased come to his hands and improperly withheld payment, make an order that the decree or any portion thereof may be executed against the defendant in person and not in his representative capacity.

Execution.

74. The provisions of the rules relating to the execution of decrees shall, so far as they are applicable, be deemed to apply to the execution of orders.

75. Every application for executing a decree or ordinary process of the Court shall be on a form to be provided by the Court and shall be presented to the Clerk of the Court.

76. The Court or the Registrar may, upon the *ex parte* application of any person who has obtained a decree or order for the recovery or payment of money, either before or after any oral examination of the debtor liable under such decree or order, and upon affidavit by himself or his pleader or recognised agent stating that a decree or order has been made, and that it is still unsatisfied, and to what amount, and that any other person is indebted to such debtor and is within the jurisdiction, order that all debts owing or accruing from such third person (hereinafter called the garnishee) to such debtor shall be attached to answer the decree or order; and by the same or any subsequent order it may be ordered that the garnishee shall appear before the Court or the Registrar to show cause why he should not pay to the person who has obtained such decree or order the debt due from him to such debtor, or so much thereof as may be sufficient to satisfy the decree or order.

77. Service on the garnishee of an order directing the attachment of debts owing or accruing to a debtor liable under a decree or order,

or notice to the garnishee of the order directing the attachment given in such manner as the Court or Registrar may direct, shall bind such debts in the hands of the garnishee.

78. If the garnishee does not dispute the debt due or claimed to be due from him to such debtor, and does not forthwith pay into Court the amount due from him to such debtor, or an amount equal to the amount payable under the decree or order, or if he does not appear upon notice or shew any cause, then the Court, or the Registrar, may order execution to issue, and it shall issue accordingly, without any previous writ or process, to levy the amount due from such garnishee, or so much thereof as may be sufficient to satisfy the decree or order.

79. If the garnishee disputes his liability, the Court or the Registrar, instead of making an order that execution shall issue, may order that any issue or question necessary for determining his liability be tried or determined in any manner in which any issue or question in an action may be tried or determined.

80. Whenever in proceedings to obtain an attachment of debts it is suggested by the garnishee that the debt sought to be attached belongs to some third person, or that any third person has a lien, or charge upon it, the Court or the Registrar may order such third person to appear, and state the nature and particulars of his claim upon such debt.

81. After hearing the allegations of any third person under such order, as in Rule 80 mentioned, and of any other person whom by the same or any subsequent order the Court or the Registrar may order to appear, or in case of such third person not appearing when ordered, the Court or the Registrar may order execution to issue to levy the amount due from such garnishee, or may direct any issue or question to be tried or determined according to the preceding rules relating to garnishees, and may bar the claim of such third person, or make such other order as such Court or the Registrar shall think fit, upon such terms in all cases, with respect to the lien or charge (if any) of such third person, and to costs, as the Court or the Registrar shall think just and reasonable.

82. Payment made by or execution levied upon the garnishee upon any such proceeding as aforesaid, shall be a valid discharge to him as against the debtor liable under a decree or order, to the amount paid or levied, although such proceeding may be set aside or the decree or order reversed.

83. There shall be kept by the proper officer a debt attachment book, and in such book entries shall be made of the attachment and proceedings thereon, with names, dates, and statements of the amount recovered, or not; and copies of any entries made therein may be taken by any person upon application to the proper officer and payment of a prescribed fee.

84. The cost of any application for an attachment of debts, and of any proceedings arising from or incidental to such application, shall be in the discretion of the Court or the Registrar.

85. A warrant issued under Order XXI, Rules 24 and 25, in the First Schedule shall be returnable within one month from the date thereof.

Applications generally.

86. Every application (not being an application for execution) required by the Act or the extended portions of the Code, or by the next following rules, to be in writing, must contain—

(*a*) the name of the plaintiff,

(*b*) the name of the defendant,

(*c*) the relief or order applied for,

(*d*) the ground on which the relief or order is applied for.

It must be signed by the applicant or his recognised agent and his pleader, if any, and, unless in these rules otherwise provided, must be verified in the same manner as a plaint. It shall ordinarily, unless it be a matter which can under the preceding rules be dealt with by the Registrar, be presented to the particular Bench which passed the decree or order or before which the suit or matter is pending.

87. In making an application the applicant must be prepared with all necessary evidence for helping the Court to a proper determination of the matter.

88. On receiving an application the Court shall (if necessary) fix a day for hearing the same.

89. When an application has been received, and it is necessary to give notice to any person interested, a copy of the application to be furnished by the applicant, together with notice of the date fixed for its hearing, shall be served on such person in the same manner as a summons.

90. The following applications shall be in writing:—

(*a*) Under Orders XXII and XXXII and Order XXXVIII, Rules 1 and 5 in the First Schedule.

(*b*) Under Sections 18 (leave to institute a suit), 38 and 69 of the Act.

(*c*) Under Rules 62, 64, 67 and 69.

91. An application under Section 18 of the Act for leave to institute a suit shall, in addition to the particulars specified in Rule 86, contain—

(*a*) the residence of the plaintiff, or where he carries on business or works for gain;

(*b*) the residence of the defendant, or where he carries on business;

(*c*) the cause of action, or whether it arose wholly or in part within the jurisdiction.

Application for new trial or to set aside a dismissal or decree.

92. Every application under Rule 62, 64, 67 or 69, or under Section 38 of the Act, shall, when presented to the Court, be accompanied with a copy of such application, and such copy shall be served through the Court, or through some other Court, on the party as against whom the application is made, and ordinarily at least four clear days before the date fixed for hearing the application. Such service shall be made in the same manner as the service of summons. An application under Section 38 of the Act need not be verified.

In every such application the grounds shall be fully and distinctly set out, and the applicant shall at the hearing be restricted to the grounds contained in his application.

93. Every application under Section 38 of the Act shall, when the applicant has appeared at the original hearing by advocate or pleader, ordinarily be supported by a certificate of such advocate or pleader that in his opinion there are good grounds for the application.

94. The Court may, at any time after any application mentioned in Rule 92 is presented to the Court, put the parties on such terms as to furnishing security for costs, or for the amount of the claim and costs by payment into Court or otherwise, as it shall think fit.

95. Every application under Section 38 of the Act shall be heard before two Judges at least, one of whom shall be the Judge who tried the matter in respect of which the application is made, and the other the Chief Judge. If the matter in respect of which the application is made was heard by the Chief Judge, one or more Judges shall sit with him to hear the application. The Chief Judge, or, in his absence, the senior Judge, may, under special circumstances, direct that any Judges other than those specified may hear any application under Section 38 of the Act.

Claims and Complaints.

96. When a claim is preferred or objection made under Order XXI, Rule 58 or Order XXXVIII, Rule 8 in the First Schedule or under Section 61 of the Act, in respect of any property attached or seized, or in respect of the proceeds or value thereof, the claimant or objector shall file a plaint in which the claimant or objector shall be the plaintiff and the execution creditor, or the person who obtained the warrant, the defendant, and the matter shall then be treated as a suit.

97. Such plaint shall contain a statement of the particulars of the property claimed or of the objection made, and of the grounds of the claim or objection.

98. When such a plaint has been filed, the sale of the property attached or seized shall be postponed, pending the result of the suit. If the property has been sold and the money is in Court, the same shall be detained pending such result.

99. A complaint under Order 21, Rule 7 in the First Schedule, shall be in writing and shall contain particulars of the obstruction complained of. It shall be in the form of an application and be treated as such, but shall be verified by the decree-holder or some person who on his behalf has accompanied the officer entrusted with the execution of the warrant, and is acquainted with the facts of the complaint.

Recovery of possession of immoveable property.

100. Application under Section 41 of the Act shall be in the form of a plaint in which the applicant shall be the plaintiff and the occupant the defendant, and the matter shall then be treated as a suit. For the purpose of ascertaining the value of the suit the annual value of the property in respect of which the claim is made

shall be deemed to be the value of such property, and such annual value shall be stated in the plaint.

Summary Procedure in suits for small sums.

101. Save and except in the case of applications under Section 41 of the Act, the rules next hereinafter set out and numbered respectively 102 to 111 shall apply to and govern all suits for sums not exceeding Rs. 50 instituted after these rules come into force unless the Court or Registrar upon the application of the intending plaintiff made prior to the institution of any such suit shall direct that the said last mentioned rules shall not apply thereto.

102. In the case of all suits and proceedings to which this rule applies—

(*a*) Rules 26, 27, 28, 37, 38, 39, 40, 41, 42, 43, 44, 45, 55, 59, 60, 61, 65, 68 and 70 and the second paragraph of Rule 51 of the rules shall not apply, and

(*b*) Schedule A referred to in Rule 118 is amended by directing that, save as provided in Rules 15 and 29 of the rules, Order III, Rule 2 in the First Schedule, shall not apply and shall be treated as not having been extended to the Small Cause Court.

103. Save as provided in Rule 15, the recognised agents of parties by whom appearances, applications and acts may be made or done are—

(*a*) Unless the Court otherwise directs, persons holding powers of attorney from such parties authorising them to make and do such appearances, applications, and acts on behalf of such parties.

(*b*) Unless the Court otherwise directs, the husband or wife of such party or any other near relative of such party residing with him or an agent or attorney authorised by such party in writing or (in matters connected with the trade or business of a party carrying on a trade or business) a servant or agent engaged in or carrying on such trade or business and exclusively in the employ of such party.

104. The summons to a defendant shall be issued and dated as of the day on which the plaint was filed. It shall be for the final disposal of the suit and shall state before which Bench the case will be heard. In cases to which clause (*a*) of Rule 105 applies, such summons shall ordinarily be made returnable on the seventh day after the date thereof and in cases to which clause (*b*) of Rule 105 applies it shall ordinarily be made returnable on the tenth day after such date. In cases to which clause (*c*) of Rule 105 applies, such summons shall ordinarily be made returnable on the twenty-first day after the date thereof while in those cases to which clause (*d*) or (*e*) of the said rule applies such summons shall ordinarily be made returnable on the twenty-eighth day after such date and in those to which clause (*f*) applies, it shall ordinarily be made returnable on the seventieth day after such date. Provided that in any case a longer or shorter period may, if required by circumstances, be allowed at the discretion of the Court or Registrar.

105. Except under special circumstances and under the order of the Court or Registrar, the summons to a defendant shall be served upon him—

(*a*) If he resides within the local limits of the jurisdiction of the Court, at least 3 clear days before the date on which the summons has been made returnable.

(*b*) If he resides or carries on business without such local limits but within the extended limits included in the definition of "Calcutta" in Schedule I to Act III of 1899 of the Bengal Council or within the limits of the Howrah Municipality, at least 4 clear days before the date on which the summons has been made returnable.

(*c*) If he resides or carries on business outside the limits mentioned above but within 100 miles of Calcutta or within 10 miles from any Railway Station in Bengal and Behar, at least 10 days before the date on which the summons has been made returnable.

(*d*) If he resides or carries on business beyond 100 miles from Calcutta within the districts of Backergunge, Birbhum, Bhagalpur, Dacca, Burdwan, Bankura, Faridpur, Gya, Hazaribagh, Jessore, Maldah, Midnapur, Monghyr, Murshidabad, Mymensingh, Nadia, Patna, Pabna, Purnea, Rajshahi, Saran, Shahabad, Tirhut, or within 10 miles of the Delhi Station of the East Indian Railway, at least 14 days before the date on which the summons has been made returnable.

(*e*) If he resides or carries on business beyond 100 miles from Calcutta in any district subject to the Appellate Jurisdiction of the High Court of Judicature at Fort William in Bengal other than those before mentioned or at any place in the Central Provinces, or in the United Provinces of Agra and Oudh, or within the limits of the Presidency Town of Madras or Bombay, at least 14 days before the date on which the summons has been made returnable.

(*f*) If he resides elsewhere than is before mentioned within the dominions of His Majesty in India, at least 35 days before the date on which the summons has been made returnable.

106. On the day fixed in the summons for the defendant to appear and answer the parties shall be in attendance in person or by their respective recognised agents or pleaders, at the Court-house before the Judge referred to in the summons and the suit shall then be heard unless the hearing is adjourned to a future day fixed by the Court.

107. Where on the day so fixed for the defendant to appear and answer it be found that the summons has not been served upon him in consequence of the failure of the plaintiff to pay the Court-fee or postal charges (if any) leviable for such service, the Court may order that the suit be dismissed.

Provided that no such order shall be passed if on the day so fixed the defendant attends in person or by pleader or recognised agent.

108. Where the plaintiff attends and the defendant does not attend, or where there are several defendants, no defendant attends, when the suit is called on for hearing and it is proved that the summons was duly served upon all the defendants or the plaintiff withdraws his suit as against those defendants upon whom the summons has not been duly served, the Court may proceed *ex parte* and

(*a*) if the allegations contained in the plaint are sufficient, may record a decree by default against any defendants against whom the suit has not been withdrawn; or may direct that the plaint be amended and a further summons be issued and served upon those defendants against whom the suit has not been withdrawn and that the hearing be adjourned to a future day fixed by the Court.

Provided always that no decree by default shall be recorded under this rule against a minor or a person of unsound mind or upon a plaint wherein any whether so adjudged or not documents are mentioned unless such documents have been filed in Court with the plaint or are produced before the Court at the time when a decree by default is recorded.

109. Where the plaintiff attends and the defendant does not attend, or, when there are several defendants, all the defendants do not attend, when the suit is called on for hearing, and

(*a*) it is not proved that the summons has been duly served upon all the absent defendants, the Court may, if the plaintiff applies therefor, direct that a further summons be issued and served upon all or any of the defendants who have not been duly served, and that the hearing be adjourned to a future day fixed by him. If no such application is made and granted, the suit shall be dismissed as against such absent defendants and as against the other defendants shall be dealt with in the manner hereinbefore prescribed;

(*b*) it is proved that the summons was served upon all the defendants, but not in sufficient time to enable all of them to attend on the day fixed in the summons, the Court shall adjourn the hearing of the suit to a future day to be fixed by him and shall direct notice of such day to be given to such short-served defendants.

Where it is owing to the plaintiff's default that the summons was not served or was not served in sufficient time, the Court shall order him to pay the costs occasioned by the postponement.

Before making an order for adjournments under this rule, the Court may, subject to the conditions mentioned in Rule 59, record a decree by default against any defendants upon whom the summons has been proved to have been duly served.

110. Where the parties or any of them fail to appear, on the day to which the hearing of the suit is adjourned the Court may proceed to dispose of the suit in one of the modes hereinbefore directed or otherwise as it thinks fit.

111. Written statements shall be signed in the manner hereinbefore provided for signing plaints and no written statement shall

be received unless it be so signed. Unless otherwise ordered by the Court no written statement need be verified.

Commission to examine witnesses issued to this Court.

112. When a commission to examine any witness is issued by a competent Court to this Court, the Chief Judge or in his absence the Senior Judge of this Court, may, under the provisions of the Evidence by Commission Act, 1885 [48 and 49 Vict., C. 74], nominate a fit person to execute such commission. Such person when so nominated shall have all the powers intended by that Act to be given to a substituted Commissioner, and shall also for the purpose of such commission be deemed to be a Commissioner under Order XXVI in the First Schedule with all such powers as are given to a Commissioner by Rule 16 of that order.

113. Rules 15, 17 and 18 of Order XXVI in the First Schedule shall be applicable to every substituted Commissioner nominated under the provisions of the Evidence by Commission Act, 1885.

Miscellaneous.

114. All acts which may be done by the Court in regard to the appointment or removal of a guardian *ad litem* under Order XXXII, Rules 4 and 11 in the First Schedule, or in regard to the substitution or addition of parties to a suit, may be done by the Registrar.

115. When a bond is given under Section 29 of the Act as security for the payment of a decree, the obligor of such bond shall at the same time sign a warrant to confess judgment thereon.

116. No correspondence relating to suits or proceedings before the Court can be attended to, but any person having business in the Court or its office shall transact the same in person or by a duly authorised agent or pleader.

117. The Court shall frame forms for every proceeding in the Court for which it shall think it necessary that a form be provided, and may, from time to time, alter any such form or forms.

118. The portions of the Code set forth in the schedule hereunto annexed marked A, with such modifications as are indicated in the said schedule, are extended to this Court to be applied with due regard to the foregoing rules.

119. These rules shall come into force on the 1st October 1910.

120. From and after that date the rules of practice passed by the High Court and hitherto in force shall stand repealed, but such repeal shall not affect anything done under such rules.

* The report is for the week ending the 11th June 1910.

General Summary.—The rainfall was general all over the Province. The fall was very heavy in most districts of Bihar and in Darjeeling, Ranchi, Singhbhum, Cooch Behar and also in parts of Khulna, Jessore and Midnapore; it was moderate in the rest of the Province except in Burdwan, Birbhum, Howrah, the 24-Parganas and Puri, where the rainfall was light. The recent rainfall has been very beneficial, but the abnormally heavy fall has stopped agricultural operations in Purnea and also in parts of the Sonthal Parganas and Jessore. Sowings of *bhadoi* crops and weeding of jute continue. Transplantation of winter rice has commenced in parts of Bhagalpur and Purnea. Sugarcane is doing well. Prospects are fair. The price of common rice has risen in Burdwan, Bankura, Midnapore, Champaran, Muzaffarpur, the Sonthal Parganas, Balasore, Angul, Puri, Sambalpur, Ranchi, Palamau, Manbhum and Cooch Behar and has fallen in Jessore, Shahabad, Saran and Monghyr. Cattle-disease is reported from Jessore, Gaya, Champaran, Muzaffarpur, Darbhanga, Bhagalpur, Purnea, the Sonthal Parganas, Cuttack, Puri, Sambalpur and Hazaribagh. The fodder and water-supply is sufficient throughout the Province.

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

While at the Imperial Forest College the selected candidates will be granted a monthly stipend of not less than Rs. 40 and not more than Rs. 50, provided they execute the agreement and security bond prescribed by Government.

6. Candidates who obtain the Honours' certificate of the Imperial Forest College may be deputed to undergo the third year's course for direct appointment to the Provincial Service, if recommended by the Principal of the College as likely to make useful members of the Provincial Forest Service. Under similar conditions candidates, who obtain the Higher, or Lower, Standard certificates, will be appointed Rangers, or Deputy Rangers, on monthly salaries of not less than Rs. 50 and Rs. 40, respectively.

List of certificates required under Rule 2.

(*a*) A certificate that the candidate is a "Native of India" within the meaning assigned to those words by section 6 of 33 Vict., Cap. 3.

(*b*) A certificate of age.

(*c*) A health certificate in the form prescribed by article 49 of the Civil Service Regulations, fourth edition, signed by the Civil Surgeon of the district in which the said Divisional Forest Officer's or Collector's duties lie, and testifying to the candidate's sound constitution, good vision and hearing, and general physical fitness for a rough out-door life in the Forest Department, and to the fact that he bears on his body marks of successful vaccination or of small-pox.

(*d*) A certificate of respectability and good moral character from two or more persons whose social or official position can be accepted as a guarantee of reliability.

The certificates (*c*) and (*d*) must bear date not further back than the 1st April of the year previous to that in which the candidate desires admission to the college.

If any person, giving certificates as above under (*c*) and (*d*), is in a position to mention anything more to the credit of the candidate than the certificates actually call for, he may do so.

(*e*) A certificate of having passed one of the following examinations, viz: —

(*i*) the B.A., F.A., B.Sc., or Licentiate of Agriculture;

(*ii*) the matriculation, where no School Final examination exists;

(*iii*) the School Final examination, provided the candidate can show that he has qualified in English and Mathematics up to the Matriculation standard or, for European candidates, a certificate of having passed the High School examination with a similar proviso.

NOTE.—Copies of the agreement and bond to be executed under rule 5 can be obtained from the Conservator of Forests Bengal.

III.—RULES FOR THE RECRUITMENT OF THE PROVINCIAL FOREST SERVICE IN BENGAL.

1. Subject to the satisfaction of the claims of persons already qualified under the rules hitherto in force, appointments to the Provincial Forest Service shall be made—

(*a*) by the promotion of Forest Rangers of long service and tried ability and probity irrespective of the educational qualifications they may hold;

(*b*) by the selection for direct appointment of candidates who must successfully pass through the full three years' course at the Imperial Forest College, Dehra Dun, and thereafter render not less than three years' satisfactory service as Probationary Extra Assistant Conservators of Forests before being confirmed.

Government reserves to itself the right to fill all vacancies in such of the two ways described, as it may consider best, in the interests of the public service.

2. Candidates for direct appointment will be selected from—

(*a*) candidates deputed to the two years' Ranger course who obtain the Honour's certificate of the Imperial Forest College at the end of that course and who are recommended by the Principal of the College as suitable for direct appointment to the Provincial Service;

(*b*) Forest Rangers who have obtained the Higher Standard certificate of the Imperial Forest College after passing through the two years' Ranger course, and who have specially distinguished themselves thereafter by their work and conduct during a period of not less than two years' service as Forest Rangers. Rangers whose age exceeds twenty-eight years will not be selected under this rule;

(*c*) other candidates selected to pass through the full three years' course continuously and to join the service as Probationary Extra Assistant Conservators of Forests without any intermediate period of service as Forest Rangers.

3. Candidates for appointment under rule 2 (*c*) above will be nominated by the Local Government with special reference to high educational and social qualifications and to physical fitness for work in the Forest Department. It will generally be expected that a nominee should obtain the Honours' certificate of the Imperial Forest College at the end of the first two years of the full course. Should he fail to do so, it will depend largely on the recommendation of the Principal of the College whether he should be allowed to proceed to the third year's course and continue to be accepted as a prospective member of the Provincial Forest Service. Should, however, the Principal recommend any such nominee who, having failed to get Honours, has nevertheless obtained the Higher Standard certificate, on the ground that he has displayed such special ability, character and other qualifications as are likely to render him a useful member of the Provincial Forest Service, the nominee will usually be permitted to take up the third year's course. After the conclusion of that course, nominees, certified to have passed it satisfactorily, will be appointed to the Provincial Forest Service, on probation, for a period of three years, liable, however, to be further extended at the discretion of Government.

4. The pay of the Probationary Extra Assistant Conservators of Forests will be Rs. 150 per mensem during the period of their probation, and thereafter Rs. 200 per mensem until they can be appointed to vacancies in the sanctioned cadre of the Provincial Forest Service.

5. Candidates selected under rules 2 (*a*) and 2 (*b*) above will receive, during the third year's course at the Imperial Forest College, a monthly stipend of Rs. 100, or, in the case of candidates under rule 2 (*b*), the pay of their grade, whichever is greater. Candidates nominated under rule 2 (*c*) will receive such monthly stipends as the Local Government may fix in each case, subject to a maximum of Rs. 100 per mensem throughout the three years' course.

6. Candidates nominated under rule 2 (*c*) must not be less than nineteen or more than twenty-three years of age on the date of admission to the College. On the nomination of a candidate, he will be required:—

(*a*) to produce the following certificates:—

(*i*) a certificate that he is a "Native of India" as described in section 6 of 33 Vict., Cap. 3;

(*ii*) a certificate of age;

(*iii*) a health certificate in the form prescribed by article 49 of the Civil Service Regulations (fourth edition), signed by a Commissioned Medical Officer or by a Medical Officer in charge of a Civil station, and certifying to the nominee's sound constitution, good vision and hearing, and general physical fitness for a rough outdoor life in the Forest Department, and to the fact that he bears marks of successful vaccination or of small-pox;

(*iv*) a certificate that he has passed one or other of the following examinations, viz.:—

(*a*) the B.A., F.A., B.Sc., or Licentiate of Agriculture examination;

(*b*) the Matriculation examination, where no School Final examination exists;

(*c*) the School Final examination, provided the nominee can show that he is qualified in English and Mathematics up to the Matriculation standard or, for a European nominee, a certificate of having passed the High School examination with a similar proviso;

(*c*) a certificate of respectability and good moral character from two or more persons whose social or official position can be accepted as a guarantee of trustworthiness;

(*b*) to sign an agreement binding himself to work diligently while at the College and to serve Government not less than five years after passing out of the College;

(*c*) to find two sureties to execute a bond in the prescribed form guaranteeing that under special circumstances therein detailed they will refund all monies expended by Government on the nominee's behalf, &c.;

(*d*) in order to prove his fitness for forest work, to undergo preliminary practical training in such Forest divisions as the Conservator of Forests, Bengal, may direct, extending over a period of not less than three and-a-half months and not more than six months.

During this preliminary training the candidate may be granted a stipend of Rs. 40 per mensem in addition to the monthly allowance of Rs. 25 referred to in rule 4 of the rules for the selection of candidates for deputation to the two years' Ranger course.

7. Candidates selected under rule 2 (*b*) will be required to sign the agreement and security bond referred to in rule 6 (*b*) and (*c*) before re-entering the College for the third year's course.

NOTE.- Copies of the agreement and bond to be executed under rules 6 (*b*), (*c*) and 7 can be obtained from the Conservator of Forests, Bengal.

TABLE SHOWING WORK TO BE PERFORMED FOR THE PUBLIC BY OFFICERS OF CUSTOMS, AND THE FEES PAYABLE THEREFOR.

General explanations and directions.

1. Except where otherwise specified, the fees specified in this table are payable to the officer concerned.

2. In order to allow the public the free use of Preventive Officers on boardship and at the Customs wharves between the hours of 6 A.M. and 6 P.M. on ordinary working days, the Government undertake the payment of fees to their officers employed, for any overtime earned during those hours. Government ordinarily pay at the rate of Re. 1 per hour for every hour in excess of 9 hours which an officer works between 6 A.M. and 6 P.M., provided that no such fee shall be paid unless the officer has worked for a total of 54 hours in the week or for a number of hours equal to nine times the number of days during which he has been at work during the week. See explanatory table in margin. In the following cases the payment takes the form of an allowance:—

Nature of work.	Hours during which overtime may be earned.
Work at the Customs wharves, including Jetty extension, Shalimar, Ramkristopore, Kidderpore Docks and the Petroleum wharves at Budge Budge. (This includes passing of opium into the Custom House or the Presidency Opium godowns, or baggage from the jetties to the Custom House godowns.)	6 A.M. to 9 A.M.
Any description of work on boardship (except guard duty).	6 A.M. to 7 A.M. and 4 P.M. to 6 P.M. at the Jetties and Docks, and 6 A.M. to 8 A.M. and 5 P.M. to 6 P.M. for vessels in the stream.

(2) Two launch officers, Rs. 50 each per mensem, local allowances.
(3) Two officers in charge (*a*) of Shalimar and Ramkristopore and (*b*) of Patrols, Rs. 30 each per mensem, local allowances.
(4) Six officers on shore patrol, Re. 1 each daily, travelling allowance.

Government also pays overtime at the rate of Rs. 16 a day for the attendance of an Appraiser at the General Post Office on Sundays and on special holidays.

3. If a merchant or shipowner requires the services of Preventive Officers between 6 A.M. and 8 A.M. he shall present his request to that effect to the Preventive Inspector in sufficient time to enable such officer to arrange for the attendence of necessary staff. If the services of an officer are requisitioned between the hours of 6 A.M. and 8 A.M. for work on boardship, or between 6 A.M. and 9 A.M. for work at the Customs wharves, and are not utilized, the party at whose request the officer was directed to attend will pay the overtime, and not Government. Such attendance shall not be counted as attendance for Government towards making up a total of 54 hours per week.

4. The Collector of Customs, Calcutta, is prohibited from granting permission to work cargo in sea-going vessels ordinarily on Sunday. He shall, however, give written permission in the following cases:—

I. When the application to work is supported by a declaration in a prescribed form, signed by the owner or agent of the vessel, certifying that the permission is absolutely necessary to enable the vessel to leave the port owing to the state of the river or to the condition of the weather.

II. When the application is made on grounds of special urgency, provided the Collector of Customs is satisfied that such grounds are sufficient.

III. When the application is made to discharge or load live-stock, ship's stores, ballast or coal.

In case II permission shall only be granted on payment of a fee equal to 6¼ annas on the net registered tonnage of the vessel, subject to a minimum of Rs. 50 and a maximum of Rs. 200.

When no work is done, the whole or portion of the fee may be refunded at the discretion of the Collector, who will take into consideration the attendance of officers for work.

5. In the case of fees payable by the public, work extending up to, and not exceeding, 15 minutes beyond the regular hours is not charged for. Work in excess of 15 minutes is charged as a full hour. In the case of work at the wharves, however, only 5 minutes grace is allowed beyond the regular hours. Work extending to more than 5 minutes beyond the hour will be charged as a full hour to the agent or merchant on whose account the officer has been detained. The 15-minute rule applies also in the case of Government overtime for work on boardship.

Arrangements will be made for systematic courses of lectures, Moot Courts, and regular exercises. Facility will also be given to students to read in the College Library after the College hours under the supervision of the Principal or a member of the staff.

The College fees will be Rs. 6 per month.

Eight scholarships of Rs. 10 a month, each tenable for one year, have been established. Four of these will be open to competition among students of the first-year class and the other four among the students of the second-year class. The scholarships in the first-year class will be awarded towards the end of September upon the result of a College test to be held at that time. Those in the second-year class will be awarded upon the results of the Preliminary Examination in Law. They will take effect restrospectively from July. Additional scholarships will be awarded from the endowment established by the Hon'ble the Maharaja of Cossimbazar.

Two scholarships of Rs. 32 a month, each tenable for two years, have been established, to be open to competition among students who have prosecuted their studies in the University Law College not less than a year. The award will be made upon the results of the final Examination in Law, and on condition that the recipients do prosecute a course of study for the M.L. examination under the direction of the Principal.

Provision has been made for the residence of students who do not reside with their parents or guardians. Such students must apply on or before the 1st July 1910. Dr. B. C. Ghose, M.A., M.B. (Cantab.), will be the Medical Officer for such students as reside in the College Hostel.

Students are recommended in all cases to take their admission before the 1st July 1910.

The College classes will be held ordinarily from 9 A.M. to 11-15 A.M. for first-year students and from 3-30 P.M. to 6-45 P.M. for second-year students. Students who have completed their first-year Lectures and intend to withdraw temporarily from their Law studies on account of pressure of M.A. work are warned that they must do so at their own risk, as under the New Regulations they are not likely to obtain next year a complete course of lectures corresponding to the present second-year course; they are strongly advised to consult the Principal before they take any action in the matter.

To the College is attached an extensive Law Library containing numerous sets of reports and text-books. The Library is divided into two sections—(A) for reference, (B) for lending. Books in section (A) may be consulted by students at any time from 9 A.M. to 6-30 P.M. Books in section (B) may be borrowed by students; no deposit is required, if one volume is borrowed. Those who deposit Rs. 5 are allowed to borrow two volumes at a time.

During the last session, the Hon'ble the Vice-Chancellor presided over many of the Moot Courts, and a special course of lectures on the Law of Mortgages was delivered by Babu Mahendranath Ray, M.A., B.L. Maulavi Zahadur Rahim Zahid, M.A., B.L., and Mr. Manmathanath Basu, M.A. (Cantab.), also delivered extra courses of lectures. Similar arrangements will be made during the ensuing session.

All applications for admission are to be addressed to the Registrar, Senate House, Calcutta, to whom any application for further information may be sent.

CUSTOM HOUSE NOTICE.

Credit system for the payment of Salt duty.

UNDER this system, as explained in the rules appended hereto, the payment of duty on salt manufactured in, or imported into, or transported within Bengal may be postponed for any period not exceeding six months from the date on which such payment is due.

2 The advantage to the merchant is that in taking delivery of a consignment of salt from boardship or from bond, it will be open to him, instead of prepaying the amount of the duty into the Treasury, to execute a bond and to deposit Government Promissory Notes or the other securities specified in the rules of a sufficient value to secure the payment He will have the advantage of drawing interest on the securities throughout the period for which they are deposited. At present he loses interest on the amount of the duty from the date of payment till the date of the sale of the salt. If any further particulars are required, the Accountant at the Custom House will furnish hem on application.

(*b*) if he thinks fit, direct the account to be closed.

11. (1) If any depositor fails to pay upon demand, the balance found to be due by him to the Government upon the final adjustment of his account, he may be charged with interest on such balance from the date on which the credit expired, at the rate of 12 per cent. per annum, and the Collector may proceed to realise the amount due for principal and interest by the sale of the depositor's securities or any of them.

(2) Any surplus accruing on such sale shall be paid to the depositor, and any loss consequent on the securities not realizing the sum due from the depositor for principal and interest must be met by him.

AMENDMENT OF THE CODE OF REGULATIONS FOR EUROPEAN SCHOOLS

GENERAL DEPARTMENT—EDUCATION.

Calcutta, the 25th June 1910.

RESOLUTION No. 2332.

READ—

Resolution by the Government of Bengal, General Department, No. 8051, dated the 24th November 1908.

With Resolution No. 8051 of the 24th November 1908, the revised Code of Regulations for European Schools in Bengal was published for general information, and it was stated therein that Sir Andrew Fraser desired that the Code should be introduced as soon as possible, and that accordingly His Honour directed that the High School and Scholarship examination, the Middle School and Scholarship examination, and the Primary School examination for European Schools should be held for the last time at the end of 1909. It was further stated that the first list of recognized secondary and elementary schools would be published at the beginning of 1910.

2. The Code was severely criticised, and representations on the subject were made to Government by some of the leading bodies and individuals interested in European education in Bengal. The main objections taken were—*firstly*, the classification of all schools into two grades—secondary and elementary—between which there was alleged to be an impassable barrier; and,

secondly, the large expense involved by the inclusion of science as a compulsory subject in the curriculum for secondary schools. In response to the feeling expressed, the Lieutenant-Governor directed that the orders for the introduction of the Code in the beginning of 1910 should be suspended until these and other criticisms had been fully considered.

3. The points at issue have been carefully examined, and the Lieutenant-Governor is satisfied that the objections can be met by the modification of certain rules of the Code, and that no alteration of its main features is necessary. His Honour is gratified that this should be so, as the Revised Code was prepared after prolonged and careful consideration by a large body of experts, assisted by many individuals directly interested in the welfare of European education.

4. The effect of the rules concerning the grading of schools contained in Chapter II, as at present drafted, is to compel a school to confine its attention to the elementary education of pupils up to 14 years of age, and to give up entirely the education of pupils over that age, unless the school authorities are prepared to teach the full secondary course, providing for the education of pupils up to the age of 18. The Lieutenant-Governor is convinced that a rigid classification of this character is not suited to the educational needs of this Province, nor does it appear to be in accordance with the practice obtaining in Europe. In India the great majority of European and Eurasian children, though unable to proceed to the highest standard of a secondary school, yet require an education which continues after the age of 14 and extends beyond the elementary school curriculum. His Honour is therefore prepared to recommend to the Government of India that, in place of the two standards at present laid down in Chapter II of the Code, there should be four standards as follows :—

(1) Elementary.
(2) Higher elementary, teaching—in addition to the curriculum prescribed for elementary schools—a technical course.
(3) Secondary, teaching up to the standard of the Junior Cambridge School Certificate examination.
(4) Higher secondary, teaching up to the standard of the Senior Cambridge School Certificate examination.

5. With regard to the barrier alleged to exist between elementary and secondary schools, His Honour is advised that there has been considerable misapprehension. It was not intended that the curriculum for the preparatory section of a secondary school should differ materially from that for the corresponding classes of an elementary school. To make this clear the note to Rule 28, clause (*a*), has been amended.

6. The Lieutenant-Governor has given his careful consideration to the representations on the subject of the expense involved in the proper provision for the teaching of science, and while still of opinion that it is desirable that science should find a place in the curriculum for secondary schools, His Honour considers it unnecessary for the present to make it an obligatory subject. This decision, the Lieutenant-Governor understands, conforms with the practice obtaining in England in connection with the rules governing the grant of Cambridge School certificates.

7. These conclusions involve the alteration of the rules concerning the grant of scholarships, the conduct of examinations, and other subsidiary matters to which it is unnecessary to make special reference in this Resolution. The changes involved are set forth in the statement attached.

8. The present opportunity has been taken to consider some minor alterations in the rules of the Code. The only one of these to which special reference need be made is the alteration proposed in Chapter IX in the method of conducting the examination of elementary schools. The Code, as at present drafted, provides for both an oral and a written examination *in situ* by a Board of three persons. This procedure is attended by considerable practical difficulties, and in modification thereof it is proposed that the examination should be by written papers which will be moderated by the full Board of Examiners and the Inspector of European Schools, to be followed, as soon as the Department can make the necessary arrangements, by an oral

examination *in situ* conducted by a Board of three persons. It is further proposed that the standard of passing should be regulated by the Director of Public Instruction in consultation with the Inspector of European Schools.

9. The exact wording of the alterations which it is proposed to introduce in the rules of the Code published with Resolution No. 8051, dated the 24th November 1908, is set forth in the statement appended to the present Resolution, reference being given in each case to the rule of the Code concerned. The Lieutenant-Governor desires to invite the opinions of school managers and all bodies and individuals interested in European education in Bengal upon the changes now proposed, and he would also be glad to receive any suggestions which, while not opposed to the main principles of the Code, would be likely to lead to improvement in detail. All such expressions of opinion should reach the Secretary to the Government of Bengal in the General Department not later than 1st August 1910, and will receive the Lieutenant-Governor's careful consideration.

10. Finally, certain alterations approved by the Government of India since the Code was published in 1908 have been included in the statement appended. A clause has been added to Rule 2, giving the Local Government power to admit to the benefits of the Code schools in which the system of education approximates to that prescribed in the Code, and in which the scholars in respect of habits and mode of life approximate to scholars of European schools. It is not intended, however, that non-Europeans should be eligible for scholarships given under the Code, and consequently a clause has been added to Rule 101 to the effect that non-European scholars studying in European schools or in non-European schools which have been admitted to the benefits of the Code shall not be eligible for scholarships provided under Rules 101 and 107.

By order of the Lieutenant-Governor of Bengal,

W. R. GOURLAY,

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

o, overcast; d, drizzling rain; p, passing temporary showers.
